CHARACTERISTICS OF GEM OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been positioned as a market designed to accommodate small and mid-sized companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration.

Given that the companies listed on GEM are generally small and mid-sized companies, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and the Stock Exchange take no responsibility for the contents of this report, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.

This report, for which the directors (the “Directors”) of Seamless Green China (Holdings) Limited (the “Company”) collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on GEM of the Stock Exchange (the “GEM Listing Rules”) for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that to the best of their knowledge and belief, the information contained in this report is accurate and complete in all material respects and not misleading or deceptive, and there are no other matters the omission of which would make any statement herein or this report misleading.

CHAIRMAN'S STATEMENT

Dear Shareholders,

On behalf of the board of directors of the Company (the "Board"), I hereby present the annual report of the Company and its subsidiaries (collectively the "Group") for the financial year ended 31 December 2018 (the "Year").

RESULTS

During the Year, the Group recorded revenue of approximately HK\$121.1 million (2017: HK\$40.7 million), representing an increase of approximately 197.5% against the prior year. Loss attributable to the owners of the Company amounted to approximately HK\$6.7 million (2017: HK\$15.9 million), representing a decrease of loss of approximately 57.9% as compared to 2017. Basic loss per share for the Year was HK0.43 cents (2017: HK1.10 cents).

BUSINESSES

The Company is an investment holding company. The Group's principal business activities are manufacturing and trading of LED and related products, manufacturing and sale of optoelectronic products and sapphire watch crystals, trading of liquor, and property investment.

LED and related products

The revenue of the LED and related products division for the years ended 31 December 2018 and 2017 amounted to approximately HK\$117.8 million and HK\$37.1 million respectively, representing an increase of approximately 217.5%. Since 2017, the Group launched a new LED and related product line which is gaining market popularity in Hong Kong and China.

Optoelectronic products

The revenue of optoelectronic products division for the years ended 31 December 2018 and 2017 amounted to approximately HK\$2.0 million and HK\$2.8 million respectively, representing a decrease of approximately 28.6%. The division's performance remains weak due to the sluggish market of traditional watches.

Liquor products

The revenue of liquor products division for the year ended 31 December 2018 amounted to HK\$1.3 million (2017: HK\$0.8 million), representing an increase of approximately 62.5% as compared to 2017.

Sapphire watch crystals

No revenue for this business segment was generated for the Year (2017: Nil).

CHAIRMAN'S STATEMENT

PROSPECTS

Since 2017, the Group launched a new LED and related product line which is gaining market popularity in Hong Kong and China. We expect to receive recurring and increasing purchase orders for LED and related products in the forthcoming years.

The Company has been continuously reviewing its business operations and financial position for the purpose of formulating business plans and strategies for its future business development, which would enable the Group not only to develop its existing business divisions but also to capture business opportunities, diversify its businesses and broaden its income sources. The Company will endeavour to allocate its resources in an efficient and effective manner and in the best interest of the Company and its Shareholders as a whole.

MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS AND FINANCIAL REVIEW

The Company is an investment holding company. The Group's principal activities were involved in the manufacturing and trading of LED and related products, manufacturing and sale of optoelectronic products and sapphire watch crystals, trading of liquor, and property investment.

During the year ended 31 December 2018 (the "Year"), the total revenue of the Group amounted to approximately HK\$121.1 million, representing a 197.5% increase from that of approximately HK\$40.7 million generated in 2017. Loss attributable to owners of the Company for the Year was approximately HK\$6.7 million, as compared to that of approximately HK\$15.9 million in 2017.

Revenue

LED and related products division

The Group's LED and related products division recorded a revenue of HK\$117.8 million for the Year (2017: HK\$37.1 million), representing an increase of approximately 217.5%. Since 2017, the Group launched a new LED and related product line which is gaining market popularity in Hong Kong and China. We expect to receive recurring and increasing purchase orders for LED and related products in the forthcoming years.

Optoelectronics products division

The Group's optoelectronics products division recorded a revenue of HK\$2.0 million during the Year (2017: HK\$2.8 million), represented a decrease of 28.6% as compared to 2017. The division's performance remains weak due to the sluggish market of traditional watches. The Board will continue to monitor the market situation and will continue to explore business opportunities to leverage on the Group's established experience in watch industry.

Trading of liquor products division

The Group's liquor trading division recorded a revenue of HK\$1.3 million (2017: HK\$0.8 million), representing an increase of 62.5% as compared to 2017. Last year, the sales of the division have improved but the growth rate did not meet the Company's expectation. The Company will conduct an internal review of the strategy of the division.

Sapphire watch crystals division

The Group's sapphire watch crystals division did not generate any revenue during the Year (2017: Nil), principally due to the sluggish market of traditional watches resulted from competition of smart watches. In addition, the Group's watch manufacturing facilities need substantial maintenance, upgrade and replacement if the Group is to accept more profitable orders. The Company is exploring opportunities in trading of watches and watch-related components, which are less reliant on intensive capital expenditure.

Administrative and other operating expenses

Total administrative and other operating expenses were HK\$15.3 million for the Year (2017: HK\$18.2 million), representing a decrease of 15.9% which was mainly due to the cost control measures adopted by the management to control the expenditure of the Group.

MANAGEMENT DISCUSSION AND ANALYSIS

Impairment loss on trade receivable, investment accounted for using the equity method and other financial assets carried at amortised cost

During the Year, the Group recognised an impairment loss on trade receivables of HK\$1,888,000 mainly based on the assessment of the expected credit losses (2017: Nil) by grouping the trade receivables with shared credit risk characteristics and collectively assessed for likelihood of recovery.

During the year, the Group recognised an impairment loss on other financial assets carried at amortised cost HK\$26,000 (2017: HK\$2,006,000) and investment accounted for using the equity method of nil (2017: HK\$4,974,000) respectively.

Capital structure, financial resources and liquidity

The primary objective of the Group's capital management is to safeguard the Group's ability to continue as a going concern and to maintain healthy capital ratios in order to support its business and maximise the value of its shareholders (the "Shareholders").

The Group manages its capital structure and makes adjustments to it in light of changes in economic conditions. In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to the Shareholders, issue new shares, obtain other borrowings, or sell assets to reduce debt.

The Group monitors capital on the basis of the gearing ratio. This ratio is calculated as net debt divided by total capital. Net debt is calculated as trade and other payables and promissory notes, less cash and cash equivalents. Total capital is calculated as "equity" as shown in the consolidated statement of financial position plus net debt.

The gearing ratios as at 31 December 2018 and 2017 were as follows:

	2018 HK\$'000	2017 HK\$'000
Trade and other payables	46,687	23,204
Promissory notes	15,000	15,000
Less: cash and cash equivalents	(5,014)	(42,784)
Net debt	56,673	(4,580)
Total equity	52,617	64,547
Total capital	109,290	59,967
Gearing ratio	51.9%	Not meaningful

The shareholders' funds of the Group decreased to approximately HK\$52.6 million as at 31 December 2018 (2017: approximately HK\$64.5 million), which was mainly due to the operating loss during the Year. The Group's current assets amounted to approximately HK\$100.7 million as at 31 December 2018 (2017: approximately HK\$85.3 million), of which approximately HK\$5.0 million (2017: approximately HK\$42.8 million) was cash and cash equivalents.

MANAGEMENT DISCUSSION AND ANALYSIS

As at 31 December 2018, the Group had cash and cash equivalents of approximately HK\$5.0 million (2017: approximately HK\$42.8 million), of which approximately 40%, 51% and 9% (2017: approximately 70%, 28% and 2%) were denominated in Hong Kong dollars (“HKD”), Renminbi (“RMB”) and United States dollars (“USD”) respectively.

As at 31 December 2018, the Group’s borrowing comprised the promissory notes amounting to HK\$15 million (2017: HK\$15 million). The promissory notes were expected to be repayable within one year and are denominated in HKD.

In managing the liquidity risk, the Group monitors and maintains a level of cash and cash equivalents deemed adequate by the management to finance the Group’s operations and mitigate the effects of fluctuations in cash flows. The Group relies on funds generated from operations and fund raising activities.

Trade receivable mainly represented the sales of LED and related products which accounted for approximately over 90% of the gross trade receivable balances as at 31 December 2018. As at the latest practicable date, trade receivables amounted to approximately HK\$43.9 million were subsequently settled.

The directors of the Company have reviewed the Group’s cash flow projections, which cover a period of twelve months from 31 December 2018. The directors are of the opinion that, taking into account the following plans and measures, the Group will have sufficient working capital to meet its financial obligations as and when they fall due within the next twelve months from 31 December 2018:

- (1) In March 2019, the Group had obtained a 2-year loan of HK\$15,000,000 with interest rate of 5.25% per annum from a director, in which HK\$3,000,000 had been deposited to the Group in March 2019; and
- (2) In March 2019, the Group had obtained a 3-year loan facility of HK\$20,000,000 from a non-banking financial institution and had already drawn down HK\$500,000 from this loan facility.

In the opinion of the directors, in light of the above plans and measures, the Group will have sufficient working capital to fulfil its financial obligations as and when they fall due in the coming twelve months from 31 December 2018.

Foreign currency risk

The Group operates mainly in Mainland China and Hong Kong. For the operations in Mainland China, the transactions are mostly denominated in RMB. Minimal exposure to fluctuation in exchange rates is expected. For the operations in Hong Kong, most of the transactions are denominated in HK\$ and US\$. Since the exchange rate of US\$ against HK\$ is pegged to each other under the Linked Exchange Rate System, the exposure to fluctuation in exchange rates will only arise from the translation to the presentation currency of the Group. The Group did not resort to any currency hedging facility for the Year. However, the management will monitor the Group’s foreign currency exposure should the need arise.

Contingent liabilities

At 31 December 2018, the Group had no material contingent liabilities.

MANAGEMENT DISCUSSION AND ANALYSIS

Employees and remuneration policies

As at 31 December 2018, the Group had 58 employees (2017: 67). Employees were remunerated according to their performance and work experience. In addition to the basic salaries and retirement scheme, staff benefits including free accommodation at the Group's staff quarters in Hong Kong, performance bonus and share options. The total staff costs including Directors' remuneration for the Year were approximately HK\$6.1 million (2017: approximately HK\$4.3 million).

Litigation

- (i) On 6 March 2012, a writ of summons was issued by JMM Business Network Investments (China) Limited ("JMM") against (a) Mr. Chan Ka Ming, Mr. Nee, Henry Pei Ching, Mr. Ho Chun Kit Gregory, Mr. Tam Chak Chi, Mr. Ng Kai Shing, Mr. Jal Nadirshaw Karbhari and Ms. Chan Sze Man, all former Directors; and (b) the Company. In this action, JMM sought to challenge the validity of a notice of special general meeting of the Company dated 9 February 2012, but did not specify any monetary claim against the Company. The Directors have not been aware of any material progress of this action since as early as the third quarter of 2012. As such, the Directors are of the view that the action is unlikely to result in any significant financial impact on the Company.
- (ii) On 14 March 2012, a writ of summons was issued by Good Capital Resources Limited ("Good Capital") against (a) Mr. Chan Ka Ming, Mr. Nee, Henry Pei Ching, Mr. Ho Chun Kit Gregory, Mr. Tam Chak Chi, Mr. Ng Kai Shing, Mr. Jal Nadirshaw Karbhari and Ms. Chan Sze Man, all former Directors; and (b) the Company. In this action, Good Capital sought to challenge the validity of the issuance of certain warrants and the grant of certain share options of the Company in March 2012, but did not specify any monetary claim against the Company. The Directors have not been aware of any material progress of this action since as early as the third quarter of 2012. As such, the Directors are of the view that the action is unlikely to result in any financial impact on the financial statements of the Company.
- (iii) Under action HCA 987/2016, Good Return (BVI) Limited ("Good Return"), a wholly-owned subsidiary of the Company, claims against Wickham Ventures Limited ("Wickham") and Ms. Lee Hei Wun ("Ms. Lee") for, among others, the shortfall of a profit guarantee in a total sum of HK\$16,188,374 pursuant to the sale and purchase agreement under which Good Return acquired Arnda Semiconductor Limited from Wickham (the "Legal Action"). Ms. Lee filed a Defence and Counterclaim alleging misrepresentation and breach of contract on the part of Good Return and claiming damages (unquantified), and seeking to rectify and rescind previous agreements. The Company has instructed its legal adviser to uphold its rights in the Legal Action and the Counterclaim.
- (iv) On 11 February 2015, the Company and Silver Bonus Limited (a wholly-owned subsidiary of the Company and the purchaser to the acquisition) issued a writ of summons against Mr. Lau Hin Chung (the first vendor), Shinning Team Investment Limited (the second vendor), Neo Partner Investments Ltd. (the "Target Company"), Harvest View (China) Limited (a wholly-owned subsidiary of the Target Company) and Mr. Chen Zai (the registered owner of the other 55% shareholding in the Target Company) to claim for relief including damages for breach of contract and/or rescission of contract based on misrepresentation (including a declaration that the promissory notes issued as consideration for the acquisition being null and void and unenforceable), and negligence and breach of fiduciary duties against certain ex-directors of the Company. The Company's claim relates to the acquisition by the Group of 28% shareholding in the Target Company for the consideration of HK\$23,800,000, pursuant to a sale and purchase agreement dated 10 December 2012 (as supplemented by a supplemental agreement dated 14 December 2012) which was completed on 23 January 2013. The Company has instructed its legal adviser to continue to uphold its rights in the legal action.

MANAGEMENT DISCUSSION AND ANALYSIS

- (v) On 20 April 2016, a writ of summons was issued by Mr. Zhu Jun Min (“Mr. Zhu”) against the Company for claiming a sum of approximately HK\$3.5 million, being the face value of a promissory note allegedly issued by the Company to Mr. Zhu in 2013. The Company has instructed its legal adviser to uphold its rights in the legal action.

Save as disclosed above, neither the Company nor any of its subsidiaries was involved in any material litigation at the end of the reporting period.

Significant investments, material acquisitions and disposal of subsidiaries and affiliated companies

The Group had no significant investments, material acquisitions and disposal of subsidiaries and affiliated companies during the Year.

Pledge of assets

As at 31 December 2018, the Group had no pledge of assets.

Segment Information

An analysis of the Group's performance for the Year by the type of goods sold is set out in note 5 to the consolidated financial statements and is further elaborated under the “Business and Financial Review” above.

PROSPECTS

Since 2017, the Group launched a new LED and related product line which is gaining market popularity in Hong Kong and China. We expect to receive recurring and increasing purchase orders for LED and related products in the forthcoming years.

The Company has been continuously reviewing its business operations and financial position for the purpose of formulating business plans and strategies for its future business development, which would enable the Group not only to develop its existing business divisions but also to capture business opportunities, diversify its businesses and broaden its income sources. The Company will endeavour to allocate its resources in an efficient and effective manner and in the best interest of the Company and its Shareholders as a whole.

CORPORATE GOVERNANCE REPORT

CORPORATE GOVERNANCE

The Company is committed to implementing good corporate governance practices and emphasising transparency and accountability to its shareholders and stakeholders.

The Company had complied with all the code provisions as set out in the Corporate Governance Code (the “CG Code”) contained in Appendix 15 to the GEM Listing Rules throughout the Year except for the followings:

Code provision A.2.1 of the CG Code stipulates that roles of the chairman and the chief executive should be separate and should not be performed by the same individual. Mr. KH Wong serves as the chairman of the Board (the “Chairman”) and also acts as the chief executive officer of the Company. The Board believes that vesting the roles of both Chairman and chief executive officer in the same person would allow the Company to be more effective and efficient in developing long term business strategies and execution of business plans.

Code provision A.4.1 of the CG Code stipulates that non-executive directors should be appointed for a specific term, subject to re-election. All Directors (including executive Directors and INEDs) are not appointed for a specific term but they are all subject to retirement by rotation and re-election in accordance with the Bye-laws of the Company.

The Board has reserved for its decision and consideration issues in relation to (i) formulating the strategic objectives of the Group; (ii) considering and deciding the Group’s significant operational and financial matters, including but not limited to substantial mergers and acquisitions and disposals; (iii) overseeing the Group’s corporate governance practices; (iv) ensuring a risk management control system in place; (v) directing and monitoring senior management in pursuit of the Group’s strategic objectives; and (vi) determining the remuneration packages of all Directors and the Group’s senior management, including benefits in kind, pension rights and compensation payments for loss or termination of their office or appointment. Implementation and execution of Board policies and strategies and the daily administrative matters are delegated to the respective Board committees and the management team of the Company.

The Board conducts at least four regular Board meetings a year and additional meetings will be held or resolutions in writing signed by all Directors in lieu of a meeting will be arranged as and when required. If a substantial shareholder of the Company or a Director has a conflict of interest in a transaction which the Board determines to be material, it will be considered and dealt with by the Board at a duly convened Board meeting. Comprehensive information on matters to be discussed at the Board meeting will be supplied to the Directors in a timely manner to facilitate discussion and decision-making.

CORPORATE GOVERNANCE REPORT

COMPOSITION OF THE BOARD

At the date of this report, the Board comprises 4 executive Directors and 4 INEDs. The names and office of each of the members of the Board and the Board committees of the Company during the Year and up to the date of this report are as follows:

Mr. Ng Yu Ho, Steve	

Nomination Committee members

Mr. Yan Guoniu	chairman
Mr. Tang Rong Gang	
Mr. Ou Wei An	
Mr. Ng Yu Ho, Steve	

There is no specific term of appointment of the Directors. The term of office of each of the Directors (including the INEDs) is the period up to his/her retirement by rotation or otherwise as required by the Bye-laws.

CORPORATE GOVERNANCE REPORT

The Board composition is regularly reviewed to ensure that it has a balance of skills and experience appropriate for the requirement of the business of the Group. A balanced composition of executive Directors and INEDs is maintained to ensure independence and effective management. The Company has satisfied the relevant provision of the GEM Listing Rules in having at least one of the INEDs with appropriate professional qualifications or accounting or related financial management expertise.

The appointment of Directors is recommended by the Remuneration Committee and the Nomination Committee and approved by the Board based on a formal written procedure and policy for the appointment of new Directors. When selecting potential candidates for the Directors, their skills, experience, expertise, devotion of time and non-conflicts of interests are the key factors.

The daily operation and management of the business of the Group, among other matters, the implementation of strategies, are delegated to the executive Directors. They report periodically to the Board on their work and business decisions.

All Directors have been fully consulted about any matters proposed for inclusion in the agenda for regular meetings. The chairman of the Board has delegated the responsibility for drawing up the agenda for each Board meeting to the company secretary of the Company (the "Company Secretary").

With the assistance of the executive Directors and the Company Secretary, the chairman of the Board seeks to ensure that all Directors are properly briefed on issues arising at Board meetings and have received adequate and reliable information in a timely manner.

Notices of at least fourteen days are given to the Directors for regular meetings, while Board papers are sent to the Directors not less than three days before the intended date of a Board or Board committee meeting. With respect to other meetings, the Directors are given as much notice as is reasonable and practicable in the circumstances. The Directors can attend meetings in person or through other means of electronic communication in accordance with the Bye-laws of the Company (the "Bye-laws"). The Company Secretary ensures that the procedures and all applicable rules and regulations are complied with. Minutes of Board meetings and meetings of Board committees are kept by the Company Secretary and are available for inspection at any time on reasonable notice by any Director.

The Directors have full access to information of the Group and are able to obtain independent professional advice whenever they deem necessary. Memorandums are issued to the Directors from time to time to update them with legal and regulatory changes and matters of relevance to the Directors in the discharge of their duties.

The Company has received from each of the INEDs an annual confirmation of their independence pursuant to Rule 5.09 of the GEM Listing Rules. The Company considers that all of the INEDs are independent.

Mr. KH Wong, an executive Director and the chairman of the Board, is the uncle of Mr. Huang Yonghua and Mr. Wong Tat Wa, both executive Directors. Save as disclosed in the "Biographies of Directors" section of this annual report, there is no relationship (including financial, business, family and other material/relevant relationship) among the members of the Board (including between the chairman of the Board and the executive Directors).

CORPORATE GOVERNANCE REPORT

RESPONSIBILITIES

In the course of discharging their duties, the Directors act in good faith, with due diligence and care, and in the best interests of the Company and its shareholders. Their responsibilities include (1) regular board meetings focusing on business strategy, operational issues and financial performance; (2) monitoring the quality, timeliness, relevance and reliability of internal and external reporting; (3) monitoring and managing potential conflicts of interest of management, board members and shareholders, including misuse of corporate assets and abuse in connected transaction; and (4) ensuring processes are in place to maintain the overall integrity of the Company, including financial statements, relationships with suppliers, customers and other stakeholders, and compliance with all laws and ethics.

DIRECTOR'S RESPONSIBILITIES FOR THE CONSOLIDATED FINANCIAL STATEMENT

The Directors acknowledge their responsibilities for the preparation of the consolidated financial statements of the Group and ensure that the consolidated financial statements of the Group are accordance with statutory requirements and applicable accounting standards. The Directors also ensure the timely publication of the consolidated financial statements of the Group. In preparing the accounts for the Year, the Directors have, among other things:

- Selected suitable accounting policies and applied them consistently;
- Approved adoption of all Hong Kong Financial Reporting Standards ("HKFRSs") which are in conformity with the International Financial Reporting Standards ("IFRSs"); and
- Made judgments and estimates that are prudent and reasonable; and have prepared the accounts on the going concern basis.

The Directors confirm that, to the best of their knowledge, information and belief, having made all reasonable enquiries, they are not aware of any material uncertainties relating to events or conditions that may cast significant doubt upon the Group's ability to continue as a going concern.

BOARD DIVERSITY POLICY

The Board has adopted a board diversity policy which sets out the approach to achieve a sustainable and balanced development of the Company and also to enhance the quality of performance of the Company.

The Company seeks to achieve board diversity through the consideration of a number of factors, including but not limited to gender, age, nationality, cultural and educational background, ethnicity, professional experience, skills, knowledge, industry experience and length of service.

Selection of candidates will be based on a range of diversity perspectives as stated in the above. The ultimate decision will be based on merit and contribution that the selected candidates will bring to the Board.

As at the date of this report, the Board comprises 8 Directors. Four of the Directors are INEDs and independent of management, thereby promoting critical review and control of the management process. The Board is also characterised by significant diversity, whether considered in terms of professional background and skills.

CORPORATE GOVERNANCE REPORT

DELEGATION BY THE BOARD

The Board has established three committees, namely the Audit Committee, the Remuneration Committee and the Nomination Committee. Specific responsibilities of each committee are described below. All committees are chaired by an INED. All committees have defined terms of reference which are no less exacting than those set out in the CG Code.

During the year, the Board held 5 meetings in total, and the individual attendance record of each Director at the meetings of the Board and the general meeting of the Company during the Year is set out below:

Name of Directors	Attendance/ Number of Board Meetings	Attendance/ Number of General Meeting

Mr. Yan Guoniu	5/5	0/1
Mr. Tang Rong Gang	5/5	1/1
Mr. Ou Wei An	5/5	0/1
Mr. Ng Yu Ho, Steve	5/5	1/1

Note: The attendance figure represents the actual attendance/the number of meetings a Director was required to attend.

Apart from regular Board meetings, the chairman also had a meeting with the INEDs without the presence of executive Directors during the Year.

CORPORATE GOVERNANCE REPORT

AUDIT COMMITTEE

The Audit Committee consists of four INEDs, namely Mr. Yan Guoniu, serving as the chairman, Mr. Tang Rong Gang, Mr. Ou Wei An and Mr. Ng Yu Ho, Steve.

The primary responsibilities of the Audit Committee are to (i) review the financial reporting process of the Group and its internal control and risk management systems, the effectiveness of the Company's internal audit function, (ii) oversee the audit process, (iii) review the Company's compliance with the CG Code and (iv) perform other duties assigned by the Board. All committee members possess appropriate professional qualifications or accounting or related financial management expertise as required by the GEM Listing Rules.

As required by Rule 5.28 of the GEM Listing Rules, the Company has established the Audit Committee with written terms of reference which deal clearly with its authority and duties. The Audit Committee's principal duties are to review and supervise the Company's financial reporting process and internal control systems.

During the Year, the Audit Committee reviewed the financial results of the Group on a quarterly basis, audit plans and findings of the external auditor, the independence of external auditors, accounting principles and practices of the Group, the GEM Listing Rules and statutory compliance, internal controls, risk management, financial reporting matters and adequacy of resources, qualifications and experience of accounting and financial reporting staff and made recommendations to the Board to improve the quality of financial information to be disclosed and internal control. The Audit Committee has also reviewed and approved the engagement of external auditors to perform statutory audit and non-audit services and approved their fees. There was no disagreement between the Board and the Audit Committee on the selection and appointment of external auditors.

The Company's financial statements for the Year have been reviewed by the Audit Committee. The Audit Committee considered that the relevant financial statements have been prepared in compliance with the applicable accounting principles and requirements of the Stock Exchange and disclosures have been fully made.

During the Year, the Audit Committee held 5 meetings and performed duties including reviewing the Group's annual, half-yearly and quarterly reports and considering the change of auditor of the Company.

The individual attendance record of each member at the meetings of the Audit Committee during the Year is set out below:

Name of Members	Attendance/ Number of Meetings
Mr. Yan Guoniu	5/5
Mr. Tang Rong Gang	5/5
Mr. Ou Wei An	5/5
Mr. Ng Yu Ho, Steve	5/5

CORPORATE GOVERNANCE REPORT

REMUNERATION COMMITTEE

The Remuneration Committee was established with written terms of reference in compliance with the CG Code. The Remuneration Committee consists of four INEDs, namely Mr. Yan Guoniu, serving as the chairman, Mr. Tang Rong Gang, Mr. Ou Wei An and Mr. Ng Yu Ho, Steve.

The primary duties of the Remuneration Committee are to make recommendations to the Board on the Company's policy and structure of all remuneration of Directors and senior management and the establishment of a formal and transparent procedure for developing a policy on such remuneration, assess performance of executive directors and approve the terms of executive directors' service contracts.

The Remuneration Committee and the Board review the terms of reference of the Remuneration Committee at least annually. The terms of reference of the Remuneration Committee are in line with the requirements of the GEM Listing Rules.

According to the terms of reference of the Remuneration Committee, the Remuneration Committee makes recommendation, to the Board for its final determination of the remuneration packages of all executive Directors and senior management, including benefits in kind, pension rights and compensation payments, including any compensation payable for loss or termination of their office or appointment; and make recommendations to the Board about the Directors' fee of non-executive Directors. The Remuneration Committee takes into consideration factors such as salaries paid by comparable companies, responsibilities and performance of the Directors and senior management.

The Remuneration Committee members held one meeting in the Year. During the Year, the Committee has discussed and reviewed the remuneration policy and the remuneration packages for the Directors. The remuneration policy of the Company is to enable the Company to retain and motivate employees (including executive Directors) to meet corporate objectives. A Director is not allowed to approve his/her own remuneration. The remuneration package of an executive Director includes basic salary, allowance, discretionary bonus and share-based benefits, which are all covered by a service contract. The Director's fee of INEDs is subject to annual assessment. Remuneration surveys on companies operating in similar business, inflation rates, industry trends and performance of the Company are referred to when the Remuneration Committee is considering the remuneration packages of the Directors.

The individual attendance record of each member at the meeting of the Remuneration Committee during the Year is set out below:

Name of Members	Attendance/ Number of Meeting
Mr. Yan Guoniu	1/1
Mr. Tang Rong Gang	1/1
Mr. Ou Wei An	1/1
Mr. Ng Yu Ho, Steve	1/1

CORPORATE GOVERNANCE REPORT

DIRECTORS AND OFFICERS INSURANCE

Appropriate insurance covers on directors' and officers' liabilities have been in force to protect the Directors and officers of the Group from their risk exposure arising from the business of the Group and, as at the date of this report, the Directors and officers of the Company are indemnified under a directors' and officers' liability insurance against any liability incurred by them in discharge of their duties while holding office as the Directors and officers of the Company. The Directors and officers of the Company shall not be indemnified where there is any fraud, breach of duty or breach of trust proven against them.

COMPANY SECRETARY

The present company secretary of the Company (the "Company Secretary") is an external service provider, and his primary corporate contact person is Mr. KH Wong, an executive Director and the Chairman of the Board, for the purpose of code provision F.1.1 of the CG Code. The Company Secretary is to ensure a good information flow within the Board and between the Board and senior management of the Company, to provide advice to the Board in relation to the Directors' obligations under the GEM Listing Rules and applicable laws and regulations and to assist the Board in implementing the corporate governance practices. Mr. Fung Nam Shan, the Company Secretary of the Company, has attended and complied with the 15-hour training requirement under Rule 5.15 of the GEM Listing Rules.

CORPORATE GOVERNANCE REPORT

INTERNAL CONTROLS

The Directors are responsible for maintaining and reviewing the effectiveness of the internal controls of the Company, including material financial, operational and compliance controls, risk management functions and particularly the adequacy of resources, staff qualifications and experience, training programs and budget of the accounting and financial reporting function. Appropriate policies and control procedures have been designed and established to ensure that assets are safeguarded against improper use or disposal, relevant rules and regulations are adhered to and complied with, reliable financial and accounting records are maintained in accordance with relevant accounting standards and regulatory reporting requirements, and key risks that may impact on the Company performance are appropriately identified and managed. In the case of the Company, such procedures are designed to manage, rather than eliminate, the risk of failure to achieve business objectives. These procedures can only provide reasonable, and not absolute, assurance against material misstatement or losses.

The Company has engaged an internal control review advisor to conduct the annual review of the effectiveness of the internal control system. Review of the Group's internal controls covering major financial, operational and compliance controls, as well as risk management functions of different systems has been done on a systematic rotational basis based on the risk assessments of the operations and controls. The scope of review for the Year had been determined and approved by the Audit Committee. No major issue but areas for improvement have been identified. The Board and the Audit Committee considered that the key areas of the Group's internal control systems are reasonably implemented.

RESPONSIBILITY FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The Directors acknowledge their responsibility for preparing the consolidated financial statements of the Group and ensure that the preparation of the consolidated financial statements of the Group is in accordance with statutory requirements and applicable accounting standards.

The directors of the Company have reviewed the Group's cash flow projections, which cover a period of twelve months from 31 December 2018. The directors are of the opinion that, taking into account the following plans and measures, the Group will have sufficient working capital to meet its financial obligations as and when they fall due within the next twelve months from 31 December 2018:

- (1) In March 2019, the Group had obtained a 2-year loan of HK\$15,000,000 with interest rate of 5.25% per annum from a director, in which HK\$3,000,000 had been deposited to the Group in March 2019; and
- (2) In March 2019, the Group had obtained a 3-year loan facility of HK\$20,000,000 from a non-banking financial institution and had already drawn down HK\$500,000 from this loan facility.

In the opinion of the directors, in light of the above plans and measures, the Group will have sufficient working capital to fulfil its financial obligations as and when they fall due in the coming twelve months from 31 December 2018.

CORPORATE GOVERNANCE REPORT

The Directors were not aware of any material uncertainties which may affect the Company's business or cast significant doubt upon the Company's ability to continue as a going concern.

The statement of the independent auditor of the Company about their reporting responsibilities on the consolidated financial statements of the Group for the Year is set out in the Independent Auditor's Report on pages 46 to 50 of this annual report.

AUDITOR'S REMUNERATION & RESPONSIBILITIES

Linksfield CPA Limited ("Linksfield") has been appointed as the auditor of the Group with effect from 22 December 2018 to fill the casual vacancy following the resignation of RSM Hong Kong 10 December 2018.

During the Year, Linksfield received HK\$550,000 for audit services and no non-audit services was provided by Linksfield.

The statement of the independent auditor of the Company about their reporting responsibilities on the consolidated financial statements of the Group for the Year is set out in the Independent Auditor's Report on page 46 to 50 of this annual report.

COMMUNICATIONS WITH SHAREHOLDERS AND INVESTORS

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

1. About this Report

Preface

This is the Environmental, Social and Governance (ESG) Report of the Company compiled in accordance with the Environmental, Social and Governance Reporting Guide (the “ESG Guide”) set out in Appendix 20 to the GEM Listing Rules. It aims to disclose the environment and social performance of the Group from 1 January 2018 to 31 December 2018 (the “Reporting Period”). A key performance index reference table is attached at the end of this report.

This report focuses on the Company’s businesses in the manufacturing and selling of optoelectronics products and LED and related products in the factories and offices located in Hong Kong and China. It highlights the Group’s efforts to minimize the negative influence to the environment, promote its employees’ well-being and contribute to the community during the Reporting Period.

2. Environmental Performance

The Company continues to enforce its environmental policy in improving the environmental awareness of its employees and the environmental performance of its operations, the Company has begun to establish environmental management policy to ensure better use of resources and environmental protection.

2.1. Emissions Policy and Compliance

The Company complies with related environmental protection laws of Hong Kong and China in air (dust and residues) and water emissions, solid waste management and noise pollution. In addition, policies to promote efficient use of energy to lower emission and cost are in practice.

2.1.1. Types of Emissions

Carbon footprint generated from the Company’s business operations will be disclosed in this report. Carbon footprint is defined as the total amount of direct and indirect emissions of greenhouse gas (GHG) expressed in terms of equivalent amount of carbon dioxide (CO₂) emission. The GHG emission was mainly generated from the usage of electricity, gasoline, water and paper. Comprising the Company’s offices and factories for the reporting period, its operations cover a total floor area of 2,922.81 m² (2017: 2,914 m²) and accounted for 100% of its GHG emissions.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

2.1.2. Greenhouse Gas Emissions

The year on year carbon footprint comparison is listed in the following table. The total annual GHG emission intensity due to energy usage was 0.093 tCO₂-eq/m² as compared to 0.077 tCO₂-eq/m² last year. The major source of the GHG emission was from the consumption of electricity in the manufacturing locations and the usage of petroleum by the vehicles for employee transportation.

Scope	Sources of carbon emission	2018		2017	
		GHG* emission (in tCO ₂ -eq)	Distribution	GHG* emission (in tCO ₂ -eq)	Distribution
1	Stationary	N/A		N/A	
	Mobile (vehicles)	38.13	14.00%	10.60	4.71%
	Refrigerant	N/A		N/A	
2	Purchased electricity	230.48	84.61%	212.85	94.54%
3	Disposal of paper waste	3.3		1.48	
	Fresh water processing	0.35	1.39%	0.16	0.75%
	Sewage water processing	0.13		0.06	
Total GHG* emission		272.39	100%	225.15	100%

* The GHG is calculated according to the 'Guidelines to Account for and Report on Greenhouse Gas Emissions and Removals for Buildings (Commercial, Residential or Institutional Purposes) in Hong Kong' jointly published by EPD and EMSD.

The increase in GHG emission this year was attributed to the establishment of the new LED and related product line and the Company will closely monitor the use of energy during production to minimize carbon emission in future.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

2.1.3. Hazardous Waste

The only concerned hazardous waste generated from the optoelectronics and LED and related products that includes LED driver and transformer would be electrical waste (E-waste). Most products have obtained the CE marking accredited by international association and laboratory. All E-waste generated from production were collected by the designated recyclers in accordance with the waste electrical and electronic equipment procedures. The product and its parts should not exceed the limit being set for the CE accredited listed hazardous substance. All parts and post-consumer parts should be appropriately recycled. During the Reporting Period, the E-waste had been well sorted and recycled by local recyclers.

2.1.4. Non-hazardous Waste

Non-hazardous waste produced from the Company's operation includes packaging materials, paper for office use and other domestic waste from the factories. There were about 12.5 tonnes of carton boxes being used for the packaging of final products. While 543.36kg of papers were being used in the offices, therefore; they accounted for the total non-hazardous waste produced by the Company. There are practices in place to collect the waste for recycling and disposal.

2.1.5. Emission Prevention, Hazardous Waste and Non-hazardous Waste Reduction

With the growing awareness towards waste reduction and simpler packaging, the Company is already practicing minimal use of plastic related materials since it is difficult to be recycled and it is mostly ended-up in landfill. Double sided and recycled paper printing is also in practice to minimize the amount of paper use, and some paper waste was collected by local recyclers.

2.2. Uses of Resources

2.2.1. Energy Consumption

Fossil Fuel – Petroleum

A total of 16,158 litres of petroleum was used for the Company's vehicles. It contributed to 38.13 tCO₂-eq and 14.00% of the Company's total carbon footprint.

Electricity

The total electricity consumption by the Company was 275,468.00 Kilowatt-hour (kWh), with an energy intensity of 94.28 kWh/m². The Company has adopted an energy saving policy to improve energy efficiency since 2015. Energy saving practices were adopted in the offices and factories. The Company is actively seeking for more energy efficient equipment to reduce electricity consumption in the factories.

2.2.2. Water Consumption

The total water consumption was 825 m³. The increase in year on year consumption was attributed to the growth in the LED and related products business. Nevertheless, the Company shall actively include water conservation measure in the factories to enhance water efficiency and save this precious natural resource on earth.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

2.3. The Environment and Natural Resources

2.3.1. Impacts of Activities on the Environment and Natural Resources

The Company's operations do not involve in production-related air, water and land pollutions which are regulated under related environmental laws and regulations. As the main operations are taken place in industrial area, most of the emission and waste generated from the factories were well treated before they were returned to the environment. Therefore, the direct impact from the Company's activities towards the environment and natural resources is minimal.

3. Social Performance

3.1. Employment Policy and Compliance

The Company understands that its product quality and competitiveness are highly dependent on its employees and as such, employees' remuneration is structured to encourage a sustainable workforce with a wide range of additional benefits including housing, transportation and meal allowances, free accommodation at the Company's staff quarters in Hong Kong, performance bonus and share options. During the reporting period, there was no incidence of work stoppages, litigation, claims, administrative action or arbitration relating to labour disputes against the Company.

3.1.1. Total workforce by gender, age group and geographical region

As at 31 December 2018, the total number of employees being employed by the Company was 58 (2017: 67) with a combination of 24 women and 34 men and the age range between 18 to 63.

3.2. Health and Safety Policies and Compliance

The Company cares about the well-being of employees through adopting various occupational health and safety measures to promote and enhance safety awareness and practices among employees. Specific instructions and guidelines on health and safety procedure are developed and communicated through briefings, notices, posters, and slogans. During the reporting period, the Company has not violated any related safety and health ordinance and provisions.

3.2.1. Occupational Health and Safety Data

Nevertheless, work-related injury is protected by the Employees' Compensation Ordinance (Chapter 282 of the Laws of Hong Kong) and the Regulation of Insurance for Labour Injury in China.

	2018	2017
Number of Work-related Fatalities	0	0
Work injury cases with leave of absence >3 days	0	0

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

3.2.2. Occupational Health and Safety Measures

The work injury rate was 0 this year (2017: 0). The Company has adopted an occupational health and safety system in the factories to ensure a safe and healthy working environment is provided. Personal protective equipment is provided to employees in accordance to the work process and safety precautions tips are communicated through daily briefing. Regular assessment is implemented to enhance employees' safety compliance.

3.3. Development and Training Policies

The Company regarded technical skills and experience of employees are important and critical to its continued success and growth; relevant safety, production skills, and equipment operation procedures trainings are provided to ensure employees are trained professionally and qualified for their jobs.

3.4. Labour Standards

3.4.1. Child, forced, and illegal labour

There is no child nor forced labour in the Company as it complies with the related employment ordinance and labour laws of Hong Kong and China on the protection of minors in terms of employment management. Steps are taken during the recruitment process to ensure laws are strictly abided.

3.5. Supply Chain Management

The safety and quality of the final products are among the top priorities of the Company. To ensure the safety and quality standard of its products, the Company's supply chain management oversees and manages processes from raw materials used, product design, customer specification, quality management in factories and final products testing. The Company's procurement policy is to plan and forecast production plan resources need and select suppliers that offer quality assurance, reasonable price, stable inventory and timely delivery so that the its production process and standard will not be compromised. The Company is committed to ensure its supply chain is operating as efficiently as possible to ensure the its final products are safe and standardized.

3.5.1. Number of Suppliers by Geographical Region

The Company has a total of 30 material suppliers in its approved suppliers list. Most of the suppliers are in the proximity of the factory to save transportation time and cost.

3.5.2. Suppliers Engagement

The Company recognizes the importance of using strategic suppliers who offer reliable, high quality, safe and technologically advanced products to meet the engineering needs of its customers. With the supplier qualifying process and the supplier performance measurement, suppliers are being accessed based on selection criteria including quality assurance, production environment, delivery stability, price and after-sales service. Sourcing for suppliers must undergo supplier survey and supplier on-site audit to be qualified as the strategic suppliers of the Company.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

3.6. Product Responsibility

REPORT OF THE DIRECTORS

The Directors submit their report together with the audited consolidated financial statements of the Group for the year ended 31 December 2018 (the “Year”).

PRINCIPAL ACTIVITIES

The principal activity of the Company is investment holding. The Company’s subsidiaries are principally engaged in the manufacturing and trading of LED and related products, manufacturing and sale of optoelectronic products and sapphire watch crystals, trading of liquor and property investment.

An analysis of the Group’s segment information for the Year by business is set out in note 5 to the consolidated financial statements.

RESULTS AND DIVIDENDS

Details of the audited consolidated results of the Group for the Year are set out in the consolidated statement of profit or loss and consolidated statement of comprehensive income on pages 51 and 52, of this annual report.

The Board does not recommend the payment of a final dividend for the Year (2017: Nil).

BUSINESS REVIEW

A fair review of the business of the Group as well as discussion and analysis of the Group’s performance during the Year and the material factors underlying its financial performance and financial position can be found in the “Chairman’s Statement” and “Management Discussion and Analysis” set out on pages 4 to 5 and pages 6 to 11 respectively. An analysis of the Group’s financial risk management is provided in note 3 to the consolidated financial statements. No important event affecting the Group has occurred since the end of the Year.

Looking ahead, the global economic environment remains challenging. The global economic downturn and US interest rate hikes have created uncertainties and risks. The Group will continue to combat rising operating costs by bolstering production efficiency and employing stringent cost control measures. The Group will focus on the LED and related products business in 2019, with more of the Group resources being allocated in this business line as an initiative to improve the Group’s financial performance.

Environmental policies and performance

The Group recognises its responsibility to protect the environment from its business activities. The Group continually seeks to identify and manage environmental impacts attributable to its operational activities in order to minimise these impacts if possible. The Group aims to maximise energy conservation in its offices by promoting efficient use of resources and adopting green technologies. For instance, the Group continues to upgrade equipment such as lighting systems in order to increase overall operating efficiency. To identify energy efficiency opportunities, the Group measures and records the energy consumption intensity from time to time.

REPORT OF THE DIRECTORS

Compliance with law and regulation

The Group recognises the importance of compliance with regulatory requirements and that the risk of non-compliance with such requirements could lead to the termination of business operation. The Group has been allocating system and staff resources to ensure ongoing compliance with rules and regulations and to maintain cordial working relationships with relevant authorities effectively through effective communications.

The Group also complies with the requirements under the Bermuda Companies Act, the GEM Listing Rules and the Securities and Futures Ordinance, Chapter 571 of the laws of Hong Kong (the “SFO”) for the disclosure of information and corporate governance. The Group also complies with the requirements of Employment Ordinance and ordinances relating to occupational safety for the interest employees of the Group in Hong Kong.

Key relationships with employees, customers and suppliers

The Group’s success depends on, amongst other matters, the support from key stakeholders which comprise employees, shareholders, customers and suppliers.

Employees are regarded as the most important and valuable assets of the Group. The objective of the Group’s human resource management is to reward and recognise performing staff by providing a competitive remuneration package and implementing a sound performance appraisal system with appropriate incentives, and to promote career development and progression by appropriate training and providing opportunities within the Group for career advancement. One of the corporate goals of the Group is to enhance corporate value to shareholders. The Group is poised to foster business developments for improving the Group’s financial performance and rewarding shareholders by stable dividend payouts in the foreseeable future when sustainable earnings growth can be achieved, taking into account the capital adequacy levels, liquidity positions and business expansion needs of the Group. The Group aimed to maintain good and sustainable relationship with its customers and suppliers in order to achieve stable growth in sales, as well as maintain a stable supplier chain.

Principal risks and uncertainties facing the Company

Risk relating to the business growth sustainability

The Group commenced the production and sales of LED and related products in late of 2014. To a considerable degree, revenue during the Year was mainly attributable to the production and sale of LED and related products. However, the Group only has a limited operating history for the production and sale of LED and related products. Certain challenges are associated with companies that have relatively short operating histories on a business segment, including the ability to, among other things, effectively manage a rapidly growing business segment and respond effectively to the changes of market conditions.

REPORT OF THE DIRECTORS

Market risk on the existing LED and related products

The competitiveness in the LED and related industry is largely dependent on the Group's ability to improve the quality of the existing products and develop new products and techniques. As the Group has a limited history of operating the LED and related products business, no assurance could be given that such products will be well-accepted by the market.

Further, other competitors in the market may improve, develop and launch products which are superior to our products in terms of costs, production lead times and product quality, which would render our products non-competitive and obsolete. If the Group lags behind its competitors in improving existing products and/or launching new products in a timely manner, the Group may not be able to retain the existing customers, compete effectively for new business or maintain the position in the market, and the results of operations, profitability and prospects could be adversely affected as a result.

Risk relating to doing business in the People's Republic of China (the "PRC")

Substantially all of the Group's operations and assets are located the PRC. Accordingly, the Group's financial condition, results of operations and prospects are subject, to a significant degree, to the economic, political and social conditions and government policies in China. The PRC economy differs from the economies of most developed countries in a number of respects, including the extent of government involvement, level of development, growth rate, and control of foreign exchange.

While the PRC economy has grown significantly in the past 30 years, this growth has been geographically uneven among various sectors of the economy and during different periods. The Group cannot assure that the PRC economy will continue to grow, or that if there is growth, such growth will be steady and uniform. Any economic slowdown may have a negative effect on the Group's business. For example, the PRC government has in the past periodically implemented a number of measures intended to slow down certain segments of the economy, which the government believed to be overheating. The Group cannot assure that the various macroeconomic measures and monetary policies adopted by the PRC government to guide economic growth and the allocation of resources will be effective in improving the growth rate of the PRC economy. In addition, such measures, even if they benefit the overall PRC economy in the long term, may materially and adversely affect us if they reduce demand for the products.

SUBSIDIARIES

Details (including the principal activities) of the Company's principal subsidiaries as at 31 December 2018 are set out in note 34(a) to the consolidated financial statements.

Directors' service contracts

None of the Directors who are proposed for re-election at the 2019 AGM has entered into a service contract with the Company, which is not determinable by the Company within one year without payment of compensation, other than statutory compensation.

There is no specific term of appointment of the Directors. The term of office of each of the executive Directors and INEDs is the period up to his/her retirement by rotation or otherwise as required by the Bye-laws. Pursuant to bye-law 87(1) of the Bye-laws, at each AGM, one-third of the Directors for the time being shall retire from office by rotation.

Directors' and controlling shareholders' interests in transactions, arrangements or contracts of significance

No transactions, arrangements or contracts of significance in relation to the business of the Group to which the Company, or any of its holding companies, or any of its subsidiaries or fellow subsidiaries was a party and in which a Director had a material interest, whether directly or indirectly, subsisted at the end of the Year or at any time during the Year, nor was there any transaction, arrangements or contract of significance for the provision of services to the Company or any of its subsidiaries by a controlling shareholder (as defined in the GEM Listing Rules) or any of its subsidiaries for the Year.

Management contract

No contract concerning the management and administration of the whole or any substantial part of the business of the Company or its subsidiaries were entered into or existed during the Year.

Directors' emoluments

Details of the remuneration of the Directors on a named basis during the Year are set out in note 9 to the consolidated financial statements.

Remuneration policy

The remuneration policy of the Company is reviewed regularly, making reference to the market conditions and performance of the Company and individual staff (including the Directors). The remuneration policy and remuneration packages of the Directors and senior management are reviewed by the remuneration committee and the Board, which are detailed in the paragraph headed "Remuneration Committee" under the Corporate Governance Report on page 21 of this annual report.

REPORT OF THE DIRECTORS

The Company provides a comprehensive benefit package for all employees as well as career development opportunities. This includes retirement schemes, share option scheme, medical insurance, other insurances, in-house training, on-the job training, external seminars and programs organised by professional bodies and educational institutes.

Details of the Company's share option scheme and the movement in the outstanding share options during the Year are set out in note 23 to the consolidated financial statements.

EQUITY-LINKED AGREEMENTS

Save and except for the Share Option Scheme as disclosed in the paragraph headed "Share Option Scheme" above, no equity-linked agreement that (i) will or may result in the Company issuing shares or (ii) requires the Company enter into any agreement that will or may result in the Company issuing shares, was entered into by the Company during the year ended 31 December 2018 or subsisted at the end of the year.

DIVIDEND POLICY

The Company has adopted a dividend policy (the "Dividend Policy"), pursuant to which the Company gives priority to distributing dividend in cash and shares its profits with its shareholders. The dividend payout ratio shall be determined or recommended, as appropriate, by the Board at its absolute discretion after taking into account the Company's financial results, future prospects and other factors, and subject to:

- the Bye-laws of the Company;
- the applicable restrictions and requirements under the laws of the Bermuda;
- any banking or other funding covenants by which the Company is bound from time to time;
- the investment and operating requirements of the Company; and
- any other factors that have material impact on the Company.

The Board may consider distributing special dividend to all shareholders, and the amount of which shall be determined and approved by the Board at its absolute discretion.

Under the Bye-laws of the Company, all of the shareholders have equal entitlement to dividends and distributions. The Board shall have the right to review the Dividend Policy from time to time as it deems fit according to the financial and business development requirements of the Company.

REPORT OF THE DIRECTORS

PERMITTED INDEMNITY

Appropriate insurance covers on directors' and officers' liabilities have been in force to protect the directors and officers of the Group from their risk exposure arising from the business of the Group.

Pursuant to the Bye-laws, the Directors shall be indemnified and secured harmless out of the assets and profits of the Company from and against all actions, costs, charges, losses, damages and expenses, which they shall or may incur or sustain by or by reason of any act done, concurred in or omitted in or about the execution of their duty.

INDEPENDENT AUDITOR'S REPORT

TO THE SHAREHOLDERS OF SEAMLESS GREEN CHINA (HOLDINGS) LIMITED

(incorporated in the Cayman Islands with limited liability and re-domiciled to Bermuda on 22 January 2008)

Opinion

What we have audited

The consolidated financial statements of Seamless Green China (Holdings) Limited (the "Company") and its subsidiaries (the "Group") set out on pages 51 to 127, which comprise:

- the consolidated statement of financial position as at 31 December 2018;
- the consolidated statement of profit or loss for the year then ended;
- the consolidated statement of comprehensive income for the year then ended;
- the consolidated statement of changes in equity for the year then ended;
- the consolidated statement of cash flows for the year then ended; and
- the notes to the consolidated financial statements, which include a summary of significant accounting policies.

Our opinion

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2018, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

Basis for Opinion

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSA") issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Group in accordance with the HKICPA's Code of Ethics for Professional Accountants ("the Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code.

INDEPENDENT AUDITOR'S REPORT

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matter identified in our audit is the impairment of trade receivables.

Key Audit Matter	How our audit addressed the Key Audit Matter
<p>Refer to Note 3.1(b)(ii) (financial risk factors), Note 4(b) (critical accounting estimates and judgments) and Note 19 (trade receivables and other financial assets carried at amortised cost) to the consolidated financial statements for related disclosures.</p> <p>As at 31 December 2018, the Group had gross trade receivables of HK\$92.2 million and provision for impairment of trade receivables of HK\$5.2 million. Provision is made for lifetime expected credit losses on trade receivables.</p> <p>Management applied judgment in assessing the expected credit losses. Receivables relating to customers with known financial difficulties, dispute or significant doubt on collection of receivables are assessed individually for provision for impairment allowance. Expected credit losses are also estimated by grouping the remaining receivables based on shared credit risk characteristics and collectively assessed for likelihood of recovery, taking into account the nature of the customer and its ageing category, and applying expected credit loss rates to the respective gross carrying amounts of the receivables. The expected credit loss rates are determined based on historical credit losses experienced from the past 3 years and adjusted to reflect current and forward-looking information such as macroeconomic factors affecting the ability of the customers to settle the receivables.</p> <p>We focused on this area due to the magnitude of the trade receivables and the estimation and judgment involved in determining the expected credit losses allowance of the trade receivables.</p>	<p>Our audit procedures in relation to management's assessment on provision for impairment losses of trade receivables included:</p> <ul style="list-style-type: none">– Understood and validated the credit control procedures performed by management, including its procedures on periodic review of aged receivables and assessment on expected credit losses allowance of receivables;– Tested on a sample basis, the accuracy of ageing profile of trade receivables by checking to the underlying sales invoices;– Tested on a sample basis, the subsequent settlement of trade receivables against bank receipts; and– Obtained management's assessment on the expected credit losses allowance of receivables. We corroborated and validated management's assessment based on the historical settlement pattern from the past 3 years, correspondence with the customers, evidence from external sources including market research regarding the relevant forward-looking information such as macroeconomic factors used in management assessment. <p>Based upon the above, we found that the estimation and judgment made by management in respect of the expected credit losses allowance and the collectability of receivables were supportable by the available evidences.</p>

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Directors and the Audit Committee for the Consolidated Financial Statements

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

The audit committee are responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We report our opinion solely to you, as a body, in accordance with Section 90 of the Companies Act 1981 of Bermuda and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

INDEPENDENT AUDITOR'S REPORT

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

(continued)

As part of an audit in accordance with HKSAAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the audit committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the audit committee with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

INDEPENDENT AUDITOR'S REPORT

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

(continued)

From the matters communicated with the audit committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Kwok Chi Kan.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2018

1 General information

Seamless Green China (Holdings) Limited (the “Company”) is an investment holding company and together with its subsidiaries (collectively referred to as the “Group”) are principally engaged in the manufacturing and trading of Light Emitting Diode (“LED”) and related products, manufacturing and sale of optoelectronic products and sapphire watch crystals, trading of liquor and property investment.

The Company was incorporated in the Cayman Islands on 18 January 2001 as an exempted company with limited liability. The issued shares of the Company’s shares have been listed on GEM of The Stock Exchange of Hong Kong Limited since 10 August 2001. Pursuant to a special resolution passed on 7 January 2008, the shareholders of the Company resolved to change the domicile of the Company from the Cayman Islands to Bermuda by way of de-registration in the Cayman Islands and continuation as an exempted company under the laws of Bermuda. The re-domicile was completed on 22 January 2008. The change of domicile has no impact on the continuity and the listing status of the Company. The addresses of its registered office and principal place of business are Clarendon House, 2 Church Street, Hamilton HM 11, Bermuda and Room 1604, Seaview Commercial Building, 21-24 Connaught Road West, Sheung Wan, Hong Kong respectively.

These consolidated financial statements are presented in thousands of units of Hong Kong dollars (HK\$’000), unless otherwise stated.

2 Summary of significant accounting policies

The principal accounting policies applied in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

2.1 Basis of preparation

These consolidated financial statements have been prepared in accordance with all applicable Hong Kong Financial Reporting Standards (“HKFRS”) and requirements of the Hong Kong Companies Ordinance Cap. 622. The consolidated financial statements have been prepared under the historical cost convention, except for the investment property, available-for-sale financial assets (“AFS”) and financial asset at fair value through other comprehensive income (“FVOCI”).

The preparation of these consolidated financial statements in conformity with HKFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Group’s accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in Note 4.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2018

2 Summary of significant accounting policies *(continued)*

2.1 Basis of preparation *(continued)*

2.1.1 Changes in accounting policies and disclosures

(a) *New and amended standards adopted by the Group*

The Group has applied the following standards and amendments for the first time for their annual reporting period commencing 1 January 2018:

- HKFRS 9 Financial Instruments
- HKFRS 15 Revenue from Contracts with Customers
- Classification and Measurement of Share-based Payment Transactions – Amendments to HKFRS 2
- Annual Improvements 2014-2016 cycle
- Transfers to Investment Property – Amendments to HKAS 40
- Interpretation 22 Foreign Currency Transactions and Advance Consideration

The below explains the impact of Group's consolidated financial statements on the adoption of HKFRS 9 Financial Instruments ("HKFRS 9") and HKFRS 15 Revenue from Contracts with Customers ("HKFRS 15"). The other amendments listed above did not have any significant impact on the amounts recognised in prior periods and are not expected to significantly affect the current or future periods.

(i) **HKFRS 15 – Impact on the financial statements of the Group**

HKFRS 15 replaces the provisions of HKAS 18 "Revenue" ("HKAS 18") and HKAS 11 "Construction Contracts" ("HKAS 11") that relate to the recognition, classification and measurement of revenue and costs.

As a result of the changes in the Group's accounting policies, as explained below, except for the reclassification of the contract liabilities from deferred revenue, HKFRS 15 was generally adopted without restating any other comparative information. The adoption of HKFRS 15 in the current period does not result in any impact on the amounts reported in the consolidated financial statements and/or disclosures set out in the consolidated financial statements except that, the Group has adopted the following accounting policies on revenues with effect from 1 January 2018.

HKFRS 15 requires that revenue from contracts with customers be recognised upon the transfer of control over goods or services to the customer. As such, upon adoption, this requirement under HKFRS 15 resulted in immaterial impact to the financial statements as the timing of revenue recognition on sale of goods is nearly unchanged. Thus, there was no impact on the Group's consolidated statement of financial position as of 1 January 2018.

2.1 Basis of preparation *(continued)*

2.1.1 Changes in accounting policies and disclosures *(continued)*

(a) *New and amended standards adopted by the Group (continued)*

(ii) **HKFRS 9 – Impact on the financial statements of the Group**

HKFRS 9 replaces the provisions of HKAS 39 that relate to the recognition, classification and measurement of financial assets and financial liabilities, derecognition of financial instruments, impairment of financial assets and hedge accounting. HKFRS 9 also significantly amends other standards dealing with financial instruments such as HKFRS 7 “Financial Instruments – Disclosures”.

The adoption of HKFRS 9 from 1 January 2018 resulted in changes in accounting policies and adjustments to the amounts recognised in the consolidated financial statements as described below. In accordance with the transitional provisions in HKFRS 9, HKFRS 9 was generally adopted without restating comparative information. The reclassifications and the adjustments arising from the new impairment rules are therefore not reflected in the restated consolidated statement of financial position as at 31 December 2017, but are recognised in the opening consolidated statement of financial position on 1 January 2018.

Impact of adoption

(i) Classification and measurement of financial instruments

On 1 January 2018 (the date of initial application of HKFRS 9), the Group’s management has assessed which business models apply to the financial assets held by the Group and has classified its financial instruments into the appropriate HKFRS 9 categories.

	31 December 2017, as originally presented HK\$'000	Reclassify from available-for- sale financial asset to financial asset at fair value through other comprehensive income HK\$'000	1 January 2018, as restated HK\$'000

(a) *New and amended standards adopted by the Group (continued)*

(ii) **HKFRS 9 – Impact on the financial statements of the Group** *(continued)*

Impact of adoption *(continued)*

(i) Classification and measurement of financial instruments *(continued)*

The Group elected to present change in the fair value of its equity investment (previously classified as AFS) in other comprehensive income as it is a long-term and strategic investment that is not expected to be sold in the short to medium term. As a result, the AFS with fair value of HK\$1,094,000 as at 1 January 2018 was reclassified to financial asset at FVOCI.

There is no impact on the Group's accounting for financial liabilities, as the new requirements only affect the accounting for financial liabilities that are designated at fair value through profit or loss ("FVPL") and the Group does not have any such liabilities.

(ii) Impairment of financial assets

The Group has two types of financial assets that are subject to HKFRS 9's new expected credit loss model:

- trade receivables; and
- other financial assets carried at amortised cost

The Group was required to revise its impairment methodology under HKFRS 9 for each of these classes of assets.

While cash and cash equivalents are also subject to the impairment requirements of HKFRS 9, the identified impairment loss was immaterial.

Trade receivables

The Group applies the simplified approach to provide for expected credit losses prescribed by HKFRS 9, which permits the use of the lifetime expected losses for all trade receivables. To measure the expected credit losses, receivables relating to customers with known financial difficulties, dispute or significant doubt on collection of receivables are assessed individually for provision for impairment allowance.

Trade receivables *(continued)*

Expected credit losses are also estimated by grouping the remaining receivables based on shared credit risk characteristics and collectively assessed for likelihood of recovery, taking into account the nature of the customer, its geographical location and its ageing category, and applying expected credit loss rates to the respective gross carrying amounts of the receivables.

The expected credit loss rates are determined based on historical credit losses experienced from the past 3 years and adjusted to reflect current and forward-looking information such as macroeconomic factors affecting the ability of the customers to settle the receivables.

Management has closely monitored the credit qualities and the collectability of the trade receivables. The adoption of the simplified expected credit loss approach under HKFRS 9 has not resulted in any additional impairment loss for trade receivables as at 1 January 2018.

Other financial assets carried at amortised cost

For other financial assets carried at amortised cost, the expected credit loss is based on the 12-month expected credit loss. It is the portion of lifetime expected credit loss that results from default events on a financial instrument that are possible within 12 months after the reporting date. However, when there has been a significant increase in credit risk since origination, the allowance will be based on the lifetime expected credit loss. Management has closely monitored the credit qualities and the collectability of the other financial assets carried at amortised cost and considers that the expected credit loss is immaterial.

(b) *Impact of standards issued but not yet applied by the Group*

HKFRS 16, “Leases”

HKFRS 16 was issued in January 2016 and it will result in almost all leases being recognised on the consolidated statement of financial position by lessee, as the distinction between operating and finance leases is removed. Under the new standard, an asset (the right to use the leased item) and a financial liability to pay rentals are recognised. The only exceptions are short-term and low-value leases.

The accounting for lessors will not significantly change.

The standard will affect primarily the accounting for the Group's operating leases. As at the reporting date, the Group has non-cancellable operating lease commitments of HK\$1,175,000 (Note 29). However, the Group has not yet determined to what extent these commitments will result in the recognition of an asset and a liability for future payments and how this will affect the Group's profit and classification of cash flows.

Some of the commitments may be covered by the exception for short-term and low value leases and some commitments may relate to arrangements that will not qualify as leases under HKFRS 16.

The Group will apply the standard from its mandatory adoption date of 1 January 2019. The Group intends to apply the simplified transition approach and will not restate comparative amounts for the year prior to first adoption. Right-of-use assets for property leases will be measured on transition as if the new rules had always been applied. All other right-of-use assets will be measured at the amount of the lease liability on adoption (adjusted for any prepaid or accrued lease expenses).

There are no other standards and interpretations that are not yet effective that would be expected to have a material impact on the entity's consolidated financial statements.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2018

2 Summary of significant accounting policies *(continued)*

2.1 Basis of preparation *(continued)*

2.1.2 Going concern

For the year ended 31 December 2018, the Group incurred a loss attributable to owners of the Company of approximately HK\$6.7 million and net cash used in operating activities of approximately HK\$36.9 million.

The directors of the Company have reviewed the Group's cash flow projections, which cover a period of twelve months from 31 December 2018. The directors are of the opinion that, taking into account the following plans and measures, the Group will have sufficient working capital to meet its financial obligations as and when they fall due within the next twelve months from 31 December 2018:

- (1) In March 2019, the Group had obtained a 2-year loan of HK\$15,000,000 with interest rate of 5.25% per annum from a director, in which HK\$3,000,000 had been deposited to the Group in March 2019; and
- (2) In March 2019, the Group had obtained a 3-year loan facility of HK\$20,000,000 from a non-banking financial institution and had already drawn down HK\$500,000 from this loan facility.

Should the Group be unable to continue as a going concern, adjustments would have to be made to write down the carrying values of the Group's assets to their recoverable amounts, to provide for any further liabilities which might arise and to reclassify non-current assets and non-current liabilities as current assets and current liabilities, respectively. The effects of these adjustments have not been reflected in the consolidated financial statements.

2.2 Principles of consolidation and equity accounting

(i) Subsidiaries

Subsidiaries are all entities (including structured entities) over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases.

The acquisition method of accounting is used to account for business combinations by the Group.

Intercompany transactions, balances and unrealised gains on transactions between group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

Non-controlling interests in the results and equity of subsidiaries are shown separately in the consolidated statement of profit or loss, consolidated statement of comprehensive income, consolidated statement of financial position and consolidated statement of changes in equity respectively.

2.2 Principles of consolidation and equity accounting *(continued)*

(ii) Associated companies

Associates are all entities over which the Group has significant influence but not control or joint control. This is generally the case where the Group holds between 20% and 50% of the voting rights. Investments in associates are accounted for using the equity method of accounting (see (iii) below), after initially being recognised at cost.

(iii) Equity method

Under the equity method of accounting, the investments are initially recognised at cost and adjusted thereafter to recognise the Group's share of the post-acquisition profits or losses of the investee in profit or loss, and the Group's share of movements in other comprehensive income of the investee in other comprehensive income. Dividends received or receivable from associates and joint ventures are recognised as a reduction in the carrying amount of the investment.

When the Group's share of losses in an equity-accounted investment equals or exceeds its interest in the entity, including any other unsecured long-term receivables, the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the other entity.

Unrealised gains on transactions between the Group and its associates and joint ventures are eliminated to the extent of the Group's interest in these entities. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of equity accounted investees have been changed where necessary to ensure consistency with the policies adopted by the Group.

The carrying amount of equity-accounted investments is tested for impairment in accordance with the policy described in Note 2.9.

(iv) Changes in ownership interests

The Group treats transactions with non-controlling interests that do not result in a loss of control as transactions with equity owners of the Group. A change in ownership interest results in an adjustment between the carrying amounts of the controlling and non-controlling interests to reflect their relative interests in the subsidiary. Any difference between the amount of the adjustment to non-controlling interests and any consideration paid or received is recognised in a separate reserve within equity attributable to owners of the Company.

2 Summary of significant accounting policies *(continued)*

2.2 Principles of consolidation and equity accounting *(continued)*

(iv) Changes in ownership interests (continued)

When the Group ceases to consolidate or equity account for an investment because of a loss of control or significant influence, any retained interest in the entity is remeasured to its fair value with the change in carrying amount recognised in the consolidated statement of profit or loss. This fair value becomes the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associated company, joint venture or financial asset. In addition, any amounts previously recognised in other comprehensive income in respect of that entity are accounted for as if the Group had directly disposed of the related assets or liabilities. This may mean that amounts previously recognised in other comprehensive income are reclassified to profit or loss or transferred to another category of equity as specified/permitted by applicable HKFRSs.

If the ownership interest in an associated company is reduced but significant influence is retained, only a proportionate share of the amounts previously recognised in other comprehensive income are reclassified to profit or loss where appropriate.

2.3 Business combinations

The acquisition method of accounting is used to account for all business combinations, regardless of whether equity instruments or other assets are acquired. The consideration transferred for the acquisition of a subsidiary comprises the:

- fair values of the assets transferred
- liabilities incurred to the former owners of the acquired business
- equity interests issued by the Group
- fair value of any asset or liability resulting from a contingent consideration arrangement; and
- fair value of any pre-existing equity interest in the subsidiary.

Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are, with limited exceptions, measured initially at their fair values at the acquisition date. The Group recognises any non-controlling interest in the acquired entity on an acquisition-by-acquisition basis either at fair value or at the non-controlling interest's proportionate share of the acquired entity's net identifiable assets.

Acquisition-related costs are expensed as incurred.

2 Summary of significant accounting policies *(continued)*

2.3 Business combinations *(continued)*

The excess of the

- consideration transferred,
- amount of any non-controlling interest in the acquired entity, and
- acquisition-date fair value of any previous equity interest in the acquired entity

over the fair value of the net identifiable assets acquired is recorded as goodwill. If those amounts are less than the fair value of the net identifiable assets of the business acquired, the difference is recognised directly in consolidated statement of profit or loss as a bargain purchase.

Contingent consideration is classified either as equity or a financial liability. Amounts classified as a financial liability are subsequently remeasured to fair value with changes in fair value recognised in consolidated statement of profit or loss.

If the business combination is achieved in stages, the acquisition date carrying value of the acquirer's previously held equity interest in the acquiree is remeasured to fair value at the acquisition date. Any gains or losses arising from such remeasurement are recognised in consolidated statement of profit or loss.

2.4 Separate financial statements

Investments in subsidiaries are accounted for at cost less impairment. Cost includes direct attributable costs of investment. The results of subsidiaries are accounted for by the Company on the basis of dividend received and receivable.

Impairment testing of the investments in subsidiaries is required upon receiving a dividend from these investments if the dividend exceeds the total comprehensive income of the subsidiary in the period the dividend is declared or if the carrying amount of the investment in the separate financial statements exceeds the carrying amount in the consolidated financial statements of the investee's net assets including goodwill.

2.5 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Board of Directors of the Company that makes strategic decisions.

2.6 Foreign currency translation

(a) Functional and presentation currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The consolidated financial statements are presented in Hong Kong dollars ("HK\$"), which is the Company's functional and the Group's presentation currency.

(b) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are re-measured. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the consolidated statement of profit or loss.

All foreign exchange gains and losses are presented in consolidated statement of profit or loss on a net basis within "administrative and other operating expenses".

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair values are reported as part of the fair value gain or loss. For example, translation differences on non-monetary financial assets and liabilities such as equities held at FVPL are recognised in profit or loss as part of the fair value gain or loss. Translation differences on non-monetary financial assets such as equities classified as financial assets at FVOCI are recognised in other comprehensive income.

(c) Group companies

The results and financial position of all the group entities (none of which has the currency of a hyper-inflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- (i) assets and liabilities for each statement of financial position presented are translated at the closing rate at the date of that statement of financial position;
- (ii) income and expenses for each income statement are translated at average exchange rates (unless this average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the rate on the dates of the transactions); and

2.6 Foreign currency translation *(continued)*

(c) Group companies *(continued)*

- (iii) all resulting currency translation differences are recognised in other comprehensive income.

On consolidation, exchange differences arising from the translation of any net investment in foreign entities, and of borrowings, are recognised in other comprehensive income. When a foreign operation is sold or any borrowings forming part of the net investment are repaid, the associated exchange differences are reclassified to the consolidated statement of profit or loss, as part of the gain or loss on sale.

Goodwill and fair value adjustments arising on the acquisition of a foreign entity are treated as assets and liabilities of the foreign entity and translated at the closing rate. Currency translation differences arising are recognised in other comprehensive income.

2.7 Property, plant and equipment

Property, plant and equipment is stated at historical cost less depreciation and impairment. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are charged to the consolidated statement of profit or loss during the year in which they are incurred.

Depreciation is calculated on the straight-line method to allocate their cost net of their residual values over their estimated useful lives as follows:

Leasehold improvements	Over the shorter of lease terms or 10 years
Plant and machinery	3 years to 10 years
Furniture, fixtures and equipment	3 years to 5 years

The assets' residual values and useful lives are reviewed and adjusted if appropriate at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount (Note 2.9).

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount and are recognised within "administrative and other operating expenses" in the consolidated statement of profit or loss.

2.8 Investment properties

Investment properties, principally freehold office buildings, are held for long-term rental yields and are not occupied by the Group. Investment property is initially measured at cost, including related transaction costs and where applicable borrowing costs. Subsequently, they are carried at fair value. Changes in fair values are presented in consolidated statement of profit or loss as part of “other losses, net”.

2.9 Impairment of non-financial assets

Goodwill not subject to amortisation is tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired. Assets that are subject to amortisation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units). Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at each reporting date.

2.10 Investments and other financial assets

2.10.1 Classification

From 1 January 2018, the Group classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss); and
- those to be measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in equity instruments that are not held for trading, this will depend on whether the Group has made an irrevocable election at the time of initial recognition to account for the equity investment at FVOCI.

The Group reclassifies debt investments when and only when its business model for managing those assets changes.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2018

2 Summary of significant accounting policies *(continued)*

2.10 Investments and other financial assets *(continued)*

2.10.2 Recognition and derecognition

Regular way purchases and sales of financial assets are recognised on trade-date, the date on which the Group commits to purchase or sell the asset. Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the Group has transferred substantially all the risks and rewards of ownership.

2.10.3 Measurement

At initial recognition, the Group measures a financial asset at its fair value plus, in the case of a financial asset not at FVPL, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial asset carried at FVPL are expensed in the consolidated statement of profit or loss.

Debt instruments

Subsequent measurement of debt instruments depends on the Group's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories to classify the debt instruments:

- (1) **Amortised cost**
Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. Interest income from these financial assets is included in finance income using the effective interest rate method. Any gain or loss arising on derecognition is recognised directly in the consolidated statement of profit or loss. Impairment losses are presented as separate line item in the consolidated statement of profit or loss.
- (2) **Fair value through other comprehensive income**
Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at FVOCI. Movements in the carrying amount are taken through other comprehensive income, except for the recognition of impairment gains or losses, interest income and foreign exchange gains and losses which are recognised in the consolidated statement of profit or loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in other comprehensive income is reclassified from equity to profit or loss. Interest income from these financial assets is included in finance income using the effective interest rate method. Impairment expenses are presented as separate line item in the consolidated statement of profit or loss.
- (3) **Fair value through profit or loss**
Assets that do not meet the criteria for amortised cost or FVOCI are measured at FVPL. A gain or loss on a debt investment that is subsequently measured at FVPL is recognised in the consolidated statement of profit or loss in the period in which it arises.

2 Summary of significant accounting policies *(continued)*

2.10 Investments and other financial assets *(continued)*

2.10.3 Measurement *(continued)*

Equity instruments

The Group subsequently measures all equity investments at fair values. Where the Group's management has elected to present fair value gains and losses on equity investments in other comprehensive income, there is no subsequent reclassification of fair value gains and losses to profit or loss following the derecognition of the investment. Dividends from such investments continue to be recognised in the consolidated statement of profit or loss when the Group's right to receive payments is established.

Changes in the fair value of financial asset at FVPL are recognised in the consolidated statement of profit or loss as applicable. Impairment losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value.

2.10.4 Impairment

From 1 January 2018, the Group assesses on a forward-looking basis the expected credit losses associated with its debt instruments carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

For trade receivables, the Group applies the simplified approach permitted by HKFRS 9, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

2.10.5 Accounting policies applied until 31 December 2017

The Group has applied HKFRS 9 retrospectively, but has elected not to restate comparative information. As a result, the comparative information provided continues to be accounted for in accordance with the Group's previous accounting policy.

Until 31 December 2017, the Group classifies its financial assets in loans and receivables, and AFS. The classification depends on the purpose for which the financial assets were acquired. Management determines the classification of its financial assets at initial recognition.

(i) Reclassification

Reclassifications were made at fair value as of the reclassification date. Fair value became the new cost or amortised cost as applicable, and no reversals of fair value gains or losses recorded before reclassification date were subsequently made.

(ii) Subsequent measurement

The measurement at initial recognition did not change on adoption of HKFRS 9, see description above. AFS is subsequently carried at fair values. Loans and receivables are subsequently carried at amortised cost using the effective interest method. Changes in the fair values of monetary and non-monetary securities classified as AFS are recognised in other comprehensive income.

2.10.5 Accounting policies applied until 31 December 2017 *(continued)*

(ii) *Subsequent measurement (continued)*

When securities classified as AFS are sold or impaired, the accumulated fair value adjustments recognised in equity are included in the consolidated statement of profit or loss.

(iii) *Impairment*

The Group assesses at the end of each reporting period whether there is objective evidence that a financial asset or group of financial assets is impaired. A financial asset or a group of financial assets is impaired and impairment losses are incurred only if there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (a “loss event”) and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated. In the case of equity investments classified as available-for-sale, a significant or prolonged decline in the fair value of the security below its cost is considered an indicator that the assets are impaired.

Assets carried at amortised cost

For loans and receivables category, the amount of the loss is measured as the difference between the asset’s carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset’s original effective interest rate. The carrying amount of the asset is reduced and the amount of the loss is recognised in the consolidated statement of profit or loss.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised (such as an improvement in the debtor’s credit rating), the reversal of the previously recognised impairment loss is recognised in the consolidated statement of profit or loss.

Assets classified as available-for-sale

If there is objective evidence of impairment for AFS, the cumulative loss – measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that financial asset previously recognised in the consolidated statement of profit or loss – is removed from equity and recognised in the consolidated statement of profit or loss. Impairment losses on equity instruments that were recognised in consolidated statement of profit or loss are not reversed through the consolidated statement of profit or loss in a subsequent period.

2 Summary of significant accounting policies *(continued)*

2.11 Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the statement of financial position where the Group currently has a legally enforceable right to offset the recognised amounts, and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty.

2.12 Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined on the weighted average method. The costs of work in progress and finished good comprise direct materials, direct labour and an appropriate proportion of overheads. It excludes borrowing costs. Net realisable value is based on estimated selling prices in the ordinary course of business, less applicable variable selling expense.

2.13 Trade receivables

Trade receivables are amounts due from customers for goods sold or services performed in the ordinary course of business. If collection of trade receivables is expected in one year or less (or in the normal operating cycle of the business if longer), they are classified as current assets. If not, they are presented as non-current assets.

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less allowance for impairment.

When a trade receivable is uncollectible, it is written off against the allowance account for trade receivables. Subsequent recoveries of amounts previously written off are recognised in "other losses, net" in the consolidated statement of profit or loss.

2.14 Cash and cash equivalents

In the consolidated statement of cash flows, cash and cash equivalents include cash in hand and deposits held at call with banks, with original maturities of three months or less.

2.15 Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

2.16 Trade and other payables

These amounts represent liabilities for goods and services provided to the Group prior to the end of financial year which are unpaid. The amounts are unsecured and are usually paid within one year or less of recognition. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2018

2 Summary of significant accounting policies *(continued)*

2.17 Borrowings

Borrowings are initially recognised at fair values, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in the consolidated statement of profit or loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a prepayment for liquidity services and amortised over the period of the facility to which it relates.

Borrowings are removed from the consolidated of financial position when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in the consolidated statement of profit or loss as “other income” or “finance costs”.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period.

2.18 Borrowing costs

General and specific borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time (generally over 6 months for renewable power projects) to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

All other borrowing costs are recognised in the consolidated statement of profit or loss in the period in which they are incurred.

2.19 Current and deferred income tax

The tax expense for the period comprises current and deferred tax. Tax is recognised in the consolidated statement of profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2018

2 Summary of significant accounting policies *(continued)*

2.19 Current and deferred income tax *(continued)*

(a) Current income tax

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date in the countries where the Company's subsidiaries operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

(b) Deferred income tax

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, deferred tax liabilities are not recognised if they arise from the initial recognition of goodwill. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted at the balance sheet date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

The deferred tax liability in relation to investment property that is measured at fair value is determined assuming the property will be recovered entirely through sale.

Deferred tax assets are recognised only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax liabilities and assets are not recognised for temporary differences between the carrying amount and tax bases of investments in foreign operations where the Group is able to control the timing of the reversal of the temporary differences and it is probable that the differences will not reverse in the foreseeable future.

(c) Offsetting

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

2.20 Employee benefits

(a) Pension obligations

The Group also operates a defined contribution Mandatory Provident Fund retirement benefits scheme (the "MPF Scheme") set up pursuant to the Mandatory Provident Fund Schemes Ordinance, for all of its employees in Hong Kong. Contributions are made based on a percentage of the employees' basic salaries and are charged to the consolidated statement of profit or loss as they become payable in accordance with the rules of the MPF Scheme. The assets of the MPF Scheme are held separately from those of the Group in an independently administrated fund. The Group's employer contributions vest fully with the employees when contributed to the MPF Scheme, except for the Group's employer voluntary contributions, which are refunded to the Group when the employee leaves employment prior to vesting fully in the contributions, in accordance with the rules of the MPF Scheme.

The Group has no further payment obligations once the contributions have been paid. The contributions are recognised as an employee benefit expense when they are due and are reduced by contributions forfeited by those employees who leave the scheme prior to vesting fully in the contributions. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available.

In addition, pursuant to the government regulations in the People's Republic of China (the "PRC"), the Group is required to contribute an amount to certain retirement benefit schemes based on certain percentage of the wages for the year of those employees in the PRC. The local municipal government undertakes to assume the retirement benefits obligations of those employees of the Group. Contributions to these retirement benefits schemes are charged to the consolidated statement of profit or loss as incurred.

(b) Employee leave entitlement

Employee entitlements to annual leave are recognised when they accrue to employees. A provision is made for the estimated liability for annual leave as a result of services rendered by employees up to the balance sheet date.

Employee entitlements to sick leave and maternity leave are not recognised until the time of leave.

(c) Termination benefits

Termination benefits are recognised at the earlier of the dates when the Group can no longer withdraw the offer of those benefits and when the Group recognises restructuring costs and involves the payment of termination benefits.

(d) Share-based payment

Equity-settled share-based payment transactions

The Group operates an equity-settled, share-based compensation plans, under which the entity receives services from employees as consideration for equity instruments of the Group. The fair value of the employee services received in exchange for the grant of the options is recognised as an expense. The total amount to be expensed is determined by reference to the fair value of the options granted:

- including any market performance conditions (for example, an entity's share price);
- excluding the impact of any service and non-market performance vesting conditions (for example, profitability, sales growth targets and remaining an employee of the entity over a specified time period); and
- including the impact of any non-vesting conditions (for example, the requirement for employees to save or holding shares for a specified period of time).

The total expense is recognised over the vesting period which is the period over which all of the specified vesting conditions are to be satisfied.

At the end of each reporting period, the Group revises its estimates of the number of options that are expected to vest based on the non-marketing performance and service conditions. It recognises the impact of the revision to original estimates, if any, in the consolidated statement of profit or loss, with a corresponding adjustment to equity.

In addition, in some circumstances employees may provide services in advance of the grant date and therefore the grant date fair value is estimated for the purposes of recognising the expense during the period between service commencement period and grant date.

When the options are exercised, the Company issues new shares. The proceeds received net of any directly attributable transaction costs are credited to share capital and share premium.

2.21 Provisions

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events; it is probable that an outflow of resources will be required to settle the obligation; and the amount has been reliably estimated. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2018

2 Summary of significant accounting policies *(continued)*

2.21 Provisions *(continued)*

Provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to passage of time is recognised as interest expense.

2.22 Revenue recognition

Accounting policies applied from 1 January 2018

Revenues are recognised when or as the control of the goods or service is transferred to the customer. Depending on the terms of the contract and the laws that apply to the contract, control of the goods or service may transfer over time or at a point in time.

Control of the goods or service is transferred over time if the Group's performance:

- provides all of the benefits received and consumed simultaneously by the customer; or
- creates and enhances an asset that the customer controls as the Group performs; or
- does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

If control of the asset transfers over time, revenue is recognised over the period of the contract by reference to the progress towards complete satisfaction of that performance obligation. Otherwise, revenue is recognised at a point in time when the customer obtains control of the asset.

In determining the transaction price, the Group adjusts the promised amount of consideration for the effect of a financing component if it is significant. The Group does not expect to have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a practical expedient, the Group does not adjust any of the transaction prices for the time value of money.

Sales of products

Revenue from the sale of goods directly to the customers is recognised at the point that the control of the inventory have passed to the customers, which is primarily upon the acceptance of the products by the customers. The customers have full discretion over the products, and there is no unfulfilled obligation that could affect the customers' acceptance of the products. A receivable is recognised when the goods are delivered as this is the point in time that the consideration is unconditional because only the passage of time is required before the payment is due.

A contract liability is recognised when a customer pays consideration, or is contractually required to pay consideration and the amount is already due, before the Group recognises the related revenue. The Group recognised its contract liabilities as receipt in advance from customers in the consolidated statement of profit or loss.

2.22 Revenue recognition *(continued)*

Accounting policies applied until 31 December 2017

The Group has applied HKFRS 15, but has elected not to restate comparative information. As a result, the comparative information provided continues to be accounted for in accordance with the Group's previous accounting policy.

Revenue is measured at the fair value of the consideration received and receivable. Amounts disclosed as revenue are net of rebates and returns. The Group recognises revenue when the amount of revenue can be reliably measured; when it is probable that future economic benefits will flow to the entity; and when specific criteria have been met for the Group's activity as described below. The Group bases its estimates of return on historical results, taking into consideration the type of customers, the type of transactions and the specifics of each arrangement.

Sales of products

Revenue from the sales of goods are recognised when significant risks and rewards of ownership of the products are transferred to the customer, the customer has accepted the products and collectability of the related receivables is reasonably assumed.

2.23 Interest income

Interest income is recognised on time-proportion using the effective interest method.

2.24 Leases

Leases in which a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to the consolidated statement of profit or loss on a straight-line basis over the period of the lease.

Lease income from operating leases where the Group is a lessor is recognised in income on straight-line basis over the lease term. The respective leased assets are included in the consolidated statement of financial position based on their nature.

2.25 Dividend distribution

Dividend distribution to the Company's shareholders is recognised as a liability in the Group's and the Company's financial statements in the period in which the dividends are approved by the Company's shareholders or directors, where appropriate.

3 Financial risk management

3.1 Financial risk factors

The Group's activities expose it to a variety of financial risks: market risk (including foreign exchange risk, cash flow and fair value interest rate risk and price risk), credit risk and liquidity risk. The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's financial performance.

(a) Market risk

(i) Foreign exchange risk

The Group's foreign currency transactions are mainly denominated in Renminbi ("RMB") and HK\$. The majority of assets and liabilities are denominated in RMB and HK\$ and there are no significant assets and liabilities denominated in other currencies. The Group is subject to foreign exchange risk arising from future commercial transactions and recognised assets and liabilities denominated in a currency other than HK\$ or RMB, which are the functional currencies of the major operating companies within the Group. The Group currently does not hedge its foreign currency exposure.

The exchange rate of RMB to HK\$ is subject to the rules and regulations of foreign exchange control promulgated by the PRC government. The Group manages its foreign currency risk by closely monitoring the movement of the foreign currency rates.

For the reporting entities with HK\$ as their functional currency

Transactions or balances denominated in US\$ are reasonably stable with the Hong Kong dollars under the Linked Exchange Rate System, the directors are of the opinion that the Group does not have significant foreign exchange risk, the exposure to fluctuation in exchange rates will only arise from the translation to the presentation currency of the Group. Accordingly, no sensitivity analysis is performed.

For the reporting entities with RMB as their functional currency

As at 31 December 2018, if HK\$ had weakened/strengthened by 5% against RMB with all other variables held constant, post-tax loss for the year and equity of the Group would have been approximately HK\$21,000 (2017: HK\$150,000) higher/lower, respectively, mainly as a result of the foreign exchange difference on translation of cash and cash equivalents which denominated in HK\$.

For the year ended 31 December 2018

3 Financial risk management *(continued)*

3.1 Financial risk factors *(continued)*

(a) Market risk *(continued)*

(ii) Cash flow and fair value interest rate risk

As the Group has no significant interest-bearing financial assets and liabilities with a floating interest rate, the Group's results and operating cash flows are substantially independent of changes in market interest rates.

(iii) Price risk

The Group's financial assets at FVOCI (2017: available-for-sale financial assets) are measured at fair value at the end of each reporting period. Therefore, the Group is exposed to equity security price risk. The Group's equity price risk is mainly concentrated on equity security quoted on the NEX Stock Exchange.

As at 31 December 2018, if the share price of the investment increase/decrease by 10%, the other comprehensive income for the year would have been HK\$33,000 (2017: HK\$109,000) higher/lower, arising as a result of the fair value gain/loss of the investment.

(b) Credit risk

Credit risk arises from trade receivables, other financial assets carried at amortised cost, and cash and cash equivalents.

The carrying amounts of trade receivables and other financial assets carried at amortised cost (Note 19), represent the Group's maximum exposure to credit risk in relation to financial assets.

(i) Risk management

To manage this risk, deposits of the Group are mainly placed with state-owned financial institutions and reputable banks. The Group has policies in place to ensure that sales are made to reputable and creditworthy customers with an appropriate financial strength, credit history and an appropriate percentage of down payments. It also has other monitoring procedures to ensure that follow-up action is taken to recover overdue debts.

In addition, the Group reviews regularly the authorisation of credit limits to individual customers and recoverable amount of each individual trade receivable to ensure that adequate impairment losses are made for irrecoverable amounts.

The Group has concentration of credit risk. Sales of goods to the top five customers constituted 94% (2017: 58%) of the Group's revenue for the year ended 31 December 2018. They accounted for approximately 88% (2017: 53%) of the gross trade receivable balances as at 31 December 2018. Collections of outstanding receivable balances are closely monitored on an ongoing basis to minimise such credit risk.

3 Financial risk management (continued)

3.1 Financial risk factors (continued)

(b) Credit risk (continued)

(ii) Impairment of financial assets

Trade receivables for sales of goods of the Group are subject to the expected credit loss model. While cash and cash equivalents and other financial assets carried at amortised cost are also subject to the impairment requirements of HKFRS 9, the identified impairment loss was immaterial.

Trade receivables

The Group applies the HKFRS 9 simplified approach to measuring expected credit losses which uses a lifetime expected loss allowance for all trade receivables. The Group measures the expected credit losses on a combination of both individual and collective basis.

(a) Measurement of expected credit loss on individual basis

Receivables relating to customers with known financial difficulties, dispute or significant doubt on collection of receivables are assessed individually for provision for impairment allowance. As at 31 December 2018, the balance of loss allowance in respect of these individually assessed receivables was HK\$3,397,000 (2017: HK\$3,635,000).

The following table presents the balances of gross carrying amount and the loss allowance in respect of the individually assessed receivables as at 31 December 2018 and 2017:

	2018 HK\$'000	2017 HK\$'000
Gross carrying amount	3,397	3,635
Loss allowance	(3,397)	(3,635)
Net carrying amount	-	-

(b) Measurement of expected credit loss on collective basis

Expected credit losses are also estimated by grouping the remaining receivables based on shared credit risk characteristics and collectively assessed for likelihood of recovery, taking into account the nature of the customer and its ageing category, and applying the expected credit loss rates to the respective gross carrying amounts of the receivables.

3.1 Financial risk factors *(continued)*

(b) Credit risk *(continued)*

(ii) Impairment of financial assets *(continued)*

Trade receivables *(continued)*

(b) Measurement of expected credit loss on collective basis *(continued)*

The expected credit loss rates are determined based on historical credit losses experienced from the past 3 years and adjusted to reflect current and forward-looking information such as macroeconomic factors affecting the ability of the customers to settle the receivables.

As at 31 December 2018, the balance of loss allowance in respect of these collectively assessed trade receivable balances was HK\$1,816,000 (2017: Nil) based on expected loss rates up to 21% (2017: 0%) applied on different groupings.

Impairment losses on trade receivables are presented as “Impairment loss on trade receivables” in the consolidated statement of profit or loss. When a receivable is uncollectible, it is written off against the allowance account for receivables. Subsequent recoveries of amounts previously written off are recognised as “other losses, net” in the consolidated statement of profit or loss.

Cash and cash equivalents and other financial assets carried at amortised cost

Except for the balance of loss allowance in respect of other financial assets carried at amortised cost of HK\$9,226,000 provided as at 31 December 2018 (2017: HK\$9,209,000) (Note 19), there is no loss allowance for cash and cash equivalents and other financial assets carried at amortised cost as at 31 December 2018 (2017: Nil).

Previous accounting policy for impairment of trade receivables

In the prior year, the impairment of trade receivables was assessed based on the incurred loss model. An allowance for impairment of receivables is established when there is objective evidence that the Group will not be able to collect all amounts due according to the original terms of the receivables. Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganisation and default or delinquency in payments are considered indication that the receivable is impaired.

When a trade receivable is uncollectible, it is written off against the allowance account for trade receivables. Subsequent recoveries of amounts previously written off are recognised in “other losses, net” in the consolidated statement of profit or loss.

The impact on transition to HKFRS 9 on 1 January 2018 (date of adoption of HKFRS 9) as a result of applying the expected credit risk model was immaterial.

(c) Liquidity risk

Cash flow forecasts are prepared by management. Management monitors rolling forecasts on the Group's liquidity requirements to ensure the Group maintains sufficient liquidity reserve to support sustainability and growth of the Group's business. Currently, the Group finances its working capital requirements through funds generated from operations, issue of new shares and obtaining other borrowings.

Management monitors rolling forecasts of the Group's liquidity reserve on the basis of expected cash flows. The Group's policy is to regularly monitor current and expected liquidity requirements, to ensure that it maintains sufficient reserves of cash and adequate committed lines of funding from major financial institutions, if necessary, to meet its liquidity requirements in the short and longer term.

The table below analyses the Group's financial liabilities into relevant maturity groupings based on the remaining period at the date of the consolidated statement of financial position to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows.

3.2 Capital management

The Group regards its shareholders' equity as capital. The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares, obtain other borrowings, or sell assets to reduce debt.

The Group monitors capital on the basis of the gearing ratio. This ratio is calculated as net debt divided by total capital. Net debt is calculated as trade and other payables and promissory notes, less cash and cash equivalents. Total capital is calculated as "equity" as shown in the consolidated statement of financial position plus net debt.

The gearing ratios as at 31 December 2018 and 2017 were as follows:

	2018	2017
	HK\$'000	HK\$'000
Trade and other payables	46,687	23,204
Promissory notes	15,000	15,000

3.3 Fair value estimation

The table below analyses the Group's financial instruments carried at fair value as at 31 December 2018 and 2017 by level of inputs to valuation techniques used to measure fair value. Such inputs are categorised into three levels within a fair value hierarchy as follows:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The following table presents the Group's financial assets and liabilities that are at fair value at 31 December 2018 and 2017.

3.3 Fair value estimation *(continued)*

There were no transfers among Level 1, 2 and 3 during the year ended 31 December 2018 and 2017.

(a) **Financial instruments in level 1**

The fair value of financial instruments traded in active markets is based on quote market prices at the end of the reporting period. A market is regarded as active if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, price services or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

(b) **Financial instruments in level 2**

The fair value of financial instruments that are not traded in an active market (for example, over-the-counter derivatives) is determined by using valuation techniques. These valuation techniques maximise the use of observable market data where it is available and rely as little as possible on entity specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

(c) **Financial instruments in level 3**

If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

3.4 Fair value of financial assets and liabilities measured at amortised cost

The fair value of the following financial assets and liabilities approximate their carrying values:

- Trade receivables
- Other financial assets carried at amortised cost
- Cash and cash equivalents
- Trade and other payables
- Promissory notes

3.5 Offsetting financial assets and financial liabilities

No financial assets and financial liabilities were subject to offsetting, enforceable master netting arrangements and similar arrangements as at 31 December 2018 and 2017.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2018

4 Critical accounting estimates and assumptions

Estimates and judgments used in preparing the consolidated financial statements are evaluated based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The Group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are addressed below.

(a) Going concern

These financial statements have been prepared on a going concern basis, the validity of which depends upon certain measures taken by the Directors to improve the Group's financial position, immediate liquidity, cash flows, profitability and operations as explained in note 2.1.2 to the consolidated financial statements.

(b) Provision for impairment of trade and other financial assets carried at amortised cost

The Group makes provision for impairment of receivables based on assumptions about risk of default and expected loss rates (Note 3.1(b)(ii)). The Group uses judgment in making these assumptions and selecting the inputs to the impairment calculation, based on the historical credit losses experienced from the past 3 years and adjusted to reflect current and forward-looking information at the end of the reporting period.

(c) Income and deferred taxation

Significant judgment is required in determining the provision for income tax. There are many transactions and calculations for which the ultimate determination is uncertain. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such difference will impact the current tax and deferred tax assets and liabilities in the period in which such determination is made.

Deferred tax assets relating to certain temporary differences and tax losses are recognised when management considers it is probable that future taxable profit will be available against which the temporary differences or tax losses can be utilised. The outcome of their actual utilisation may be different.

(d) Impairment on investments accounted for using equity method

Assets that have an indefinite useful life are tested annually for impairment; or more frequently if events or changes in circumstances indicate that they might be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. The recoverable amounts have been determined based on the higher of value-in-use calculations or fair value less costs of disposal. These calculations require the use of judgments and estimates. Management judgment is required in the area of asset impairment particularly in assessing whether the carrying value of an asset can be supported by the recoverable amount, being the higher of fair value less costs of disposal and net present value of future cash flows which are estimated based upon the continued use of the asset in the business.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2018

4 Critical accounting estimates and assumptions *(continued)*

(d) Impairment on investments accounted for using equity method *(continued)*

Changing the assumptions selected by management in assessing impairment could materially affect the net present value used in the impairment test and as a result affect the Group's financial condition and results of operations.

(e) Prolonged impairment on available-for-sale financial assets

To determine if an available-for-sale financial asset is impaired, the Group evaluated the duration and extent to which the fair value of the asset is less than its costs, and the financial health of and short-term business outlook of the investee. If the decline in fair value of the listed investment is considered to be prolonged or significant, reclassification of the accumulated change in fair value previously recognised in the investment revaluation reserve will be transferred from reserve to profit or loss. During the year ended 31 December 2017, impairment of available-for-sale financial assets of HK\$1,255,000 was recognised in consolidated statement of profit or loss. The accumulated impairment losses as at 31 December 2017 were HK\$69,255,000.

(f) Fair values of investment property

The Group's investment property is stated at fair value based on the valuation carried out by independent qualified professional valuer. In determining the fair value, the valuer has based on market value basis which take into account, inter-alia, certain estimates, including open market rents, appropriate capitalisation rates, reversionary income potential, redevelopment potential and comparable market transactions. Management has reviewed the valuation and is satisfied that the valuation of the Group's investment property is reasonable.

(g) Useful lives and impairment assessment of property, plant and equipment

The Group determines the estimated useful lives, residual values and related depreciation charges for the Group's property, plant and equipment. This estimate is based on the historical experience of the actual useful lives and residual values of property, plant and equipment of similar nature and functions. The Group will revise the depreciation charge where useful lives and residual values are different to those previously estimated, or it will write-off or write-down technically obsolete or non-strategic assets that have been abandoned or sold.

At the end of each reporting period, the Group reviews the carrying amounts of its property, plant and equipment to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of any impairment loss.

5 Segment information

The Chief Operation Decision-Maker ("CODM") has been identified as the Board of Directors of the Company. CODM reviews the Group's internal reports in order to assess performance, allocate resources and determine the operating segments.

5 Segment information *(continued)*

There are four operating segments as follows:

- (a) LED and related products segment (“LED”) is engaged in manufacturing and trading of LED and related products;
- (b) Optoelectronic products segment (“Optoelectronic”) is a supplier of optoelectronic products for use in the watch products;
- (c) Liquor products segment (“Liquor”) is engaged in trading of wine; and
- (d) Sapphire watch crystals segment (“Sapphire”) is a supplier of watch crystals mainly for use in the manufacturing of watch products.

Reportable segment results represent the profit or loss resulted by each segment and exclude interest income, change in fair value of investment property, impairment loss on other financial assets carried at amortised cost, share of results of investment accounted for using the equity method, and unallocated corporate expenses.

Segment assets do not include unallocated corporate assets, including investment property, financial assets at fair value through other comprehensive income, available-for-sale financial assets, and cash and cash equivalents.

Segment liabilities do not include unallocated corporate liabilities, promissory notes, current tax liabilities and deferred income tax liabilities.

10 Income tax expense

	2018 HK\$'000	2017 HK\$'000
Current income tax on profit for the year		
– Hong Kong Profits Tax	10	21
– PRC Corporate Income Tax (“CIT”)	2,007	985
(Over)/under provision in prior year	(592)	48
Income tax expense	1,425	1,054

Hong Kong profits tax has been provided for as there is business operation that is subject to Hong Kong profits tax. It has been provided for at the rate of 8.25% (2017: 16.5%) for the first HK\$2,000,000 and 16.5% (2017: 16.5%) of the remaining estimated assessable profit for the year.

CIT is provided on the assessable income of entities within the Group incorporated in the Mainland China. The applicable CIT tax rate is 25% (2017: 25%) unless preferential tax rates were applicable.

The taxation on the Group's loss before income tax differs from the theoretical amount that would arise using weighted average tax rate applicable to profits/(losses) of the consolidated entities as follows:

	2018 HK\$'000	2017 HK\$'000
Loss before income tax	(5,270)	(14,786)
Tax calculated at domestic tax rates applicable to profits in the respective countries	(578)	(2,184)

Others	–	(61)
Income tax expenses	1,425	1,054

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2018

10 Income tax expense *(continued)*

The weighted average applicable tax rate was 10.8% (2017: 15.1%). The change is carried by a change in the profitability mix of the Group's subsidiaries in the respective countries.

11 Loss per share

(a) Basic

Basic loss per share is calculated by dividing the loss attributable to owners of the Company by the weighted average number of ordinary shares in issue during the year.

	2018	2017
Loss attributable to the owners of the Company (HK\$'000)	6,723	15,862
Weighted average number of ordinary shares in issue (thousand shares)	1,572,517	1,443,523
Basic loss per share attributable to owners of the Company (HK cents)	(0.43)	(1.10)

(b) Diluted

Diluted earnings per share is calculated by adjusting the weighted average number of ordinary shares outstanding to assume exercise of all potentially dilutive ordinary shares. The Company has one category of potentially dilutive ordinary shares: share options (Note 23). For the share options, a calculation has been done to determine the number of shares that could have been acquired at fair value (determined as the average market share price of the Company's shares for the period) based on the monetary value of the subscription rights attached to outstanding share options. The number of shares calculated as above is compared with the number of shares that would have been issued assuming the exercise of the share options.

For the year ended 31 December 2018, the share options issued were not assumed to be exercised as they would have an anti-dilutive impact to the basic loss per share (2017: Same).

12 Dividends

The directors did not recommend the payment of a final dividend for the year ended 31 December 2018 (2017: Nil).

Valuation processes of the Group

The Group's investment property was valued at 31 December 2018 and 2017 by independent third-party qualified valuers who hold a recognised relevant professional qualification and have recent experience in the locations and segments of the investment property valued. For the investment property, its current use equates to the highest and best use.

The Group's finance department includes a team that review the valuations performed by the independent valuers for financial reporting purposes. This team reports directly to the financial controller ("FC"). Discussions of valuation processes and results are held between the FC and valuers at least once every six months, in line with the Group's interim and annual reporting dates.

At each financial year end, the finance department would:

- Verifies all major inputs to the independent valuation report;
- Assesses property valuations movements when compared to the prior year valuation report; and
- Holds discussions with the independent valuers.

There were no transfers between levels 1, 2 and 3 during the year ended 31 December 2018 and 2017.

Valuation techniques use the sale comparison approach. Sales prices of comparable properties in close proximity are adjusted for differences in key attributes such as property size. The most significant input into this valuation approach is price per square meter.

There were no changes to the valuation techniques used during the year.

23 Share option scheme

The Company operates a share option scheme (the "Scheme"), which was adopted by the Company on 8 March 2011 for the purpose of providing incentives and rewards to eligible participants who contribute to the success of the Group's operations. Eligible participants of the Scheme include the Company's Directors, including independent non-executive directors, employees, whether full-time or part-time, of the Group or any Invested Entity (as defined in the Scheme), suppliers of goods or services to the Group or any Invested Entity, customers of the Group or any Invested Entity, person or entity that provides research, development or other technological support to the Group or any Invested Entity, and any shareholder of any member of the Group or any Invested Entity or holder of securities issued by any member of the Group or any Invested Entity.

Under the Scheme, the Board of Directors of the Company may grant options to eligible employees (including any executive, non-executive and independent non-executive directors), supplier, customer, shareholder and adviser or consultant of any members of the Group and any person or entity that provides research, development or other technological support to any members of the Group. The total number of shares which may be issued upon exercise of all options to be granted under the Scheme shall not in aggregate exceed 10% of the total number of shares of the Company in issue on the adoption date of the Scheme. The maximum number of shares of the Company in respect of which share options may be granted under the Scheme and any other schemes of the Company must not, in aggregate, exceed 30% of the total number of shares in issue from time to time. The total number of shares to be issued upon exercise of the options granted to each eligible person (including both exercised and outstanding options) in any 12-month period shall not exceed 1% of the total number of shares in issue. The exercise price (subscription price) shall be such price as determined by the Board in its absolute discretion at the time of the making of the offer but in any case the exercise price shall not be lower than the highest of (i) the closing price of the shares as stated in the Stock Exchange's daily quotations sheets on the offer date; (ii) the average closing price of the shares as stated in the Stock Exchange's daily quotations sheets for the five trading days immediately preceding the date of the offer of grant; and (iii) the nominal value of a share.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2018

24 Reserves (continued)

Note:

Statutory reserve

The subsidiary of the Company in the PRC is required to allocate 10% of the company's net profit to the statutory reserves fund until such fund reaches 50% of its registered capital. The statutory reserves fund can be utilised, upon approval by the relevant authorities, to offset accumulated losses or to increase its registered capital, provided that such fund is maintained at a minimum of 25% of its registered capital. As at 31 December 2018, retained earnings comprised statutory reserves fund amounting to HK\$4.4 million (2017: nil).

25 Deferred income tax

The analysis of deferred income tax assets and liabilities is as follows:

	2018 HK\$'000	2017 HK\$'000
Deferred income tax assets:		
– Deferred income tax assets to be recovered after more than 12 months	–	–
Deferred income tax liabilities:

At 31 December 2018, the Group has unused tax losses of approximately HK\$82,895,000 (2017: HK\$80,004,000) available for offset against future profits. The tax losses of HK\$5,754,000 (2017: HK\$2,863,000) will expire 2020 to 2023 (2017: 2019 to 2022) and HK\$77,141,000 (2017: HK\$77,141,000) can be carried forward indefinitely under current tax legislation. No deferred tax asset has been recognised in respect of such losses due to the unpredictability of future profit streams.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2018

25 Deferred income tax (continued)

At 31 December 2018, no deferred tax asset has been recognised in relation to the deductible temporary differences as it is not probable that taxable profit will be available against which the deductible temporary differences can be utilised (2017: Nil).

As at 31 December 2018, deferred income tax liabilities have not been provided for in the consolidated financial statements in respect of the withholding tax that would be payable on unremitted earnings of the PRC subsidiary of the Company amounting to approximately HK\$4.4 million (2017: nil), as the Group is able to control the timing of the reversal of the temporary differences and it is probable that the temporary differences will not reverse in the foreseeable future.
